AFFIDAVIT OF JUSTINE FOX-YOUNG

I, Justine Fox-Young hereby state:

1. I am competent and make these statements upon personal, first hand knowledge. If called and sworn as a witness, I could and would testify to these facts.

2. As a former candidate and as a current candidate for State Representative (District 30) in the general election on November 4, 2008 it was and is my regular practice to request and obtain the most current voter registration information for mailings and contact purposes. I am currently mailing and contacting voters in my district and supplying information, including written information, concerning the election. Most recently I mailed a survey to voters prior to the special session using the most current voter registration file available.

3. In my experience, first time voters or newly registered voters are often enthusiastic and very interested in receiving information about issues to help inform their vote, prior to the election.

4. I also have a specific and individual interest that the laws Plaintiffs challenge are upheld and the chances for fraud and errors in my election are reduced.

5. Pursuant to 28 U.S.C. § 1746, I certify under penalty of perjury that these statements are true and correct.

Justine Fox-Young
State Representative District 30
