[Announcer]: An Alabama court room can be a pretty tough place.

Only someone whose had to sit on this bench, deciding murder and death penalty cases,

knows how important it is to our families' safety.

Thank goodness we have judges like Greg Shaw

whose upheld the death penalty for some of Alabama's most heinous criminals.

With judgments so respected the Supreme Court chose him to preside over cases involving other judges.

Log-on to our petition. Ask Judge Shaw to continue protecting Alabama families.
