[Greg Shaw]: "Those who say our courts are influenced by special interests

are just plain wrong. I know all of our Supreme Court Justices,

and they are all good people, who serve our state with integrity.

What's important for you to know about me is this, I care about the

reputation of this court. I won't legislate from the bench.

I have the experience and Alabama values that you can place your trust in.

I'm Judge Greg Shaw, and I'm asking for the chance to serve you in the Alabama Supreme Court."
