[Jimmy Kuhn]: "We all want judges these days who are conservative,

who are tough on crime and protective of our individual liberties.

For example, the right to bear arms. But the most important thing

in a judge is fairness. An open mind, an open heart for each

and every case. A good judge cannot be in the pocket of special interest

groups. Someone has to protect our businesses, our families, our children

and their futures." [Announcer]: Jimmy Kuhn. Supreme Court.
