[Announcer]: Imagine- a sexual predator attacks a young girl then forces her to watch

the attack on video. Judge Michael Gableman said this criminal

only had to spend 1 year in jail. Another child sexual predator

gets convicted- even his own family feared he was a threat to other children.

But Michael Gableman lets him off easy- sentencing him to a

fraction of the jail time he could have gotten. Judge Michael Gableman-

protecting criminals, not Wisconsin families.
