[Nena Cook]: I know the Law can have an impact on people's lives, like it did when I took on

a big insurance company, to help parents get the care

their autistic son needed. I know the Law can have an impact on jobs in our economy

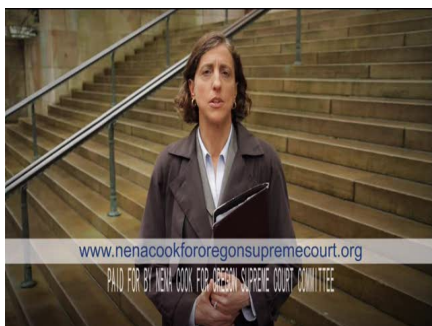

that's why I work with family-owned businesses, helping them navigate

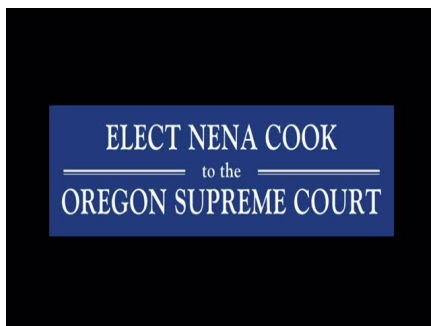

our complex legal system.

As a pro-tem Judge, I know that only in a legal system that treats everyone fairly

will justice truly be achieved.
