Predators who harm children shouldn't get off on technicality

Judge Robin Wynne is tough on sexual predators

Refusing to allow technicalities to overturn convictions

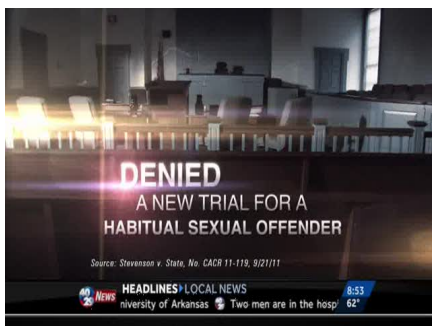

He refused to grant any leniency

to a man convicted of raping his eight year old step daughter

keeping him in jail for thirty-five years

and Wynne denied a new trial for a habitual sexual offender convicted of assaulting a young boy

[PFB] Call Judge Wynne, tell him keep protecting our children with zero leniency for predators
