[Announcer]: There is a secret war in West Virginia, and it's being waged by people from out of state

against West Virginians. Forbes magazine has revealed that Chamber of Commerce

will spend \$50 million to defeat judges supported by working people.

They want to replace them with people sympathetic to insurance companies

and multi-national corporations. These outsiders invade our laws by disgusting

their war with deceptive TV ads and telemarketing.

Which side are you on? Stand up for West Virginia, vote for Justice Warren McGraw. [PFB: McGraw 4 Supreme Court]
