capacity as Member of the New Jersey Redistricting Commission, STEPHANIE LAGOS, in her official capacity as Member of the New Jersey Redistricting Commission, JEFF NASH, in his official capacity as Member of the New Jersey Redistricting Commission, DANA REDD, in her official capacity as Member of the New Jersey Redistricting Commission, and TAHESHA WAY, in her official capacity as New Jersey Secretary of State,

Defendants.

Plaintiffs, by way of Complaint in Lieu of Prerogative Writs, hereby state as follows:

INTRODUCTION AND JURISDICTION

1. This is an action challenging the establishment of Congressional districts by the New Jersey Redistricting Commission (“NJRC”), a body established pursuant to Article II, Clause II of the New Jersey Constitution.

2. The Supreme Court of New Jersey possesses original jurisdiction over matters involving the NJRC, including the adoption of Congressional districts, pursuant to Article II, Section II, Paragraph 7 of the New Jersey Constitution.

3. On December 22, 2021, the NJRC held a meeting for the purpose of selecting one of the two maps proposed by the respective partisan delegations. The Independent Member began the meeting by reviewing the criteria he utilized to consider the proposals and proclaimed that both maps equally met the criteria – a claim the Republican delegation disputed based on its map more closely meeting and exceeding the Independent Member’s standards and general legal principles applicable to redistricting.

4. Despite the Independent Member’s statement that the maps were equally acceptable to him, the Independent Member inexplicably cast his vote upon the stated basis that the

Republican Delegation’s Congressional Redistricting Map prevailed in the last round of redistricting one decade ago, requiring the Democratic Delegation’s Congressional Redistricting Map to prevail in this round of redistricting.

5. The Independent Member specifically stated: “In the end, I decided to vote for the Democratic map, simply because in the last redistricting map it was drawn by the Republicans. Thus, I conclude that fairness dictates that the Democrats have the opportunity to have their map used for this next redistricting cycle.”

6. This reasoning established that New Jersey’s congressional redistricting through 2032 – and all of its significant implications for federal representation – were reduced to a predetermined decision that a Democratic map must prevail because Republicans “won” last time.

7. This action by the Independent Member, and in turn the NJRC, undermines the constitutional structure of the NJRC and fails to satisfy any potential standard of judicial review held applicable under New Jersey law, including being arbitrary, capricious, and unreasonable.

8. This action by the Independent Member also presents violations of both federal and state constitutional equal protection and due process protections, under either strict scrutiny or rational basis review.

9. This matter is justiciable, with the New Jersey Constitution specifically affording the Supreme Court of New Jersey with original jurisdiction over the establishment of Congressional districts and setting forth a procedure in the event a map is declared unlawful by this Court.

10. For these reasons, the Plaintiffs seek judicial relief from this court to vacate the Congressional districts established by the NJRC and to remand the matter to the NJRC for further proceedings.

ESTABLISHMENT OF NJRC

26. Under the New Jersey Constitution, the NJRC is established and tasked with the establishment of Congressional districts every ten years for the forthcoming decade, comprising New Jersey's congressional redistricting process.

27. The NJRC is comprised of six appointees of the majority political party, six appointees of the minority political party, and one "Independent Member."

28. The New Jersey Constitution provides an opportunity for the twelve partisan members to select the thirteenth "Independent Member." In the event that the twelve partisan members are unable to select the Independent Member, the Supreme Court of New Jersey is tasked with selecting from two individuals that received the greatest number of votes to serve as the Independent Member.

29. The NJRC reached an impasse for the selection of an Independent Member between the Republican Delegation's support for the Hon. Marina Corodemus (ret.) and the Democratic Delegation's support for the Hon. John E. Wallace, Jr. (ret.).

30. The NJRC certified this impasse to the Supreme Court of New Jersey, and the Supreme Court of New Jersey resolved the impasse by certifying the Democratic Delegation's choice of the Hon. John E. Wallace, Jr (ret.) to serve as the Independent Member.

NJRC PROCESS

31. The fully constituted thirteen-member NJRC held its first organizational meeting on September 1, 2021. At that meeting, John Wallace was officially recognized as the Chair of the delegation, and Douglas Steinhardt and Janice Fuller were recognized as the chairs of their respective partisan caucuses.

32. Following the organizational meeting, both partisan delegations spent significant time assembling their professional teams, which included attorneys, demographers, professional mapmakers, and other staff and technical assistance to provide them the information and tools to analyze the census data and help them craft a map. Both delegations and Chair Wallace were provided with and expended public money and resources towards the Congressional redistricting process.

33. Between October 23, 2021 and December 9, 2021, the NJRC held ten public hearings, around the state, in both virtual and in-person formats.

34. During that time, the NJRC heard public testimony on a myriad of issues that New Jersey citizens believed that the NJRC should consider when drawing Congressional districts and selecting a map.

35. Chair Wallace did not engage in any negotiations with the Republican or Democratic Delegations as part of any of these public hearings, nor did any negotiations or discussions take place in private during the time of the public hearings.

36. Following the final public hearing, the partisan delegations met with Chair Wallace and his team of advisors over the course of December 17, 2021 to December 20, 2021, at a hotel in Cherry Hill.

37. During those discussions, Chair Wallace provided feedback to the Republican delegation (and presumably to the Democratic delegation as well), and the Republican delegation made changes to its proposed map based upon the comments from Chair Wallace.

38. At no time during the three-days of discussions did Chair Wallace meet with the two partisan delegations together, nor did the partisan delegations exchange maps.

39. At the conclusion of these meetings with Chair Wallace, at Chair Wallace's request, each delegation submitted a map to him. Chair Wallace provided no concerns or additional suggestions to the Republican delegation.

40. The NJRC still had nearly one month prior to the New Jersey Constitution's deadline of January 18, 2022 to hold further negotiations towards the establishment of Congressional districts, but no such negotiations took place.

ADOPTION OF CONGRESSIONAL REDISTRICTING MAP

41. Instead, at the request of Chair Wallace, on December 22, 2021 at 10:30 AM, the NJRC held a meeting at the State House Annex in Trenton, New Jersey. The meeting lasted only approximately 15 minutes.

42. A true copy of a transcript of this meeting is attached hereto as **Exhibit A** and incorporated by reference.

43. Chair Wallace opened the meeting by making his own remarks.

44. Chair Wallace discussed the standards that his "team" considered in reviewing maps that were provided to him by both the Republican Delegation and the Democratic Delegation.

45. Chair Wallace concluded that, "in summary, both delegations aptly applied our standards to their map."

46. Thus, Chair Wallace acknowledged that he reached an impasse between selecting the maps provided by the Democratic delegation and Republican delegation, which were equally compliant with his standards.

47. Chair Wallace did not choose to take any actions to resolve the apparent impasse, such as delaying a vote on the map, pursuing further negotiations, or requesting more information from the partisan delegations. Given that the New Jersey Constitution does not require a map be

selected until January 18, 2022, Chair Wallace was under no pressure to make a decision on December 22, 2021.

48. Instead, and inexplicably, Chair Wallace determined that he was going to vote for the Democratic Delegation's map, based upon the following reasoning: "In the end, I decided to vote for the Democratic map, simply because in the last redistricting map, it was drawn by the Republicans. Thus, I conclude that fairness dictates that the Democrats have the opportunity to have their map used for the next redistricting cycle."

49. Chair Wallace's on-the-record explanation essentially held that an impasse between the Democratic and Republican delegations was required to be resolved in favor of the Democratic delegation.

50. If Chair Wallace found there to be an impasse between the Democratic Delegation's map and the Republican Delegation's map that he could not resolve, the New Jersey Constitution designates the Supreme Court of New Jersey to resolve the impasse and select between the two maps receiving the greatest number of votes.

51. If Chair Wallace had chosen that option, the Republican delegation (and Democratic Delegation) could have been provided an opportunity to present its map to the Supreme Court to argue why its map was preferable if Chair Wallace was unable to differentiate between the two maps.

52. Following Chair Wallace's remarks, the NJRC adopted the Democratic delegation's map on a party-line vote, with all Democratic Commissioners and Chair Wallace voting in favor, and all Republican Commissioners voting against.

53. The NJRC's vote and establishment of Congressional district for the next decade was invalid because it was contingent upon the flawed vote and reasoning by Chair Wallace.

54. Chair Wallace’s reasoning and actions lacked any reasonable basis and were inconsistent with the constitutional structure of the NJRC and role of the Independent Member.

55. These apparent legal infirmities can be remedied by this Court vacating the NJRC’s establishment of Congressional districts and remanding the matter for further proceedings by the NJRC, as provided in the New Jersey Constitution.

56. The New Jersey Constitution authorizes this Court to judicially extend the January 18, 2022 deadline for the NJRC to certify a Congressional map in the event of a map being declared unlawful.

57. The filing deadline for Congressional candidates is not until April 5, 2022 under Title 19 of the New Jersey statutes.

58. Thus, this Complaint has been filed with ample time for this Court to order a remand and for the NJRC to engage in further proceedings to remedy the foregoing legal infirmities.

COUNT I – ENTITLEMENT TO PREROGATIVE WRIT RELIEF

59. Plaintiff repeats and realleges each of the foregoing allegations and makes the same a part hereof as if set forth at length

60. The New Jersey Constitution specifically vests the Supreme Court of New Jersey with sole and original jurisdiction over “any action” of the NJRC, “including the establishment of Congressional districts[] by the [NJRC]” pursuant to Article II, Section II, Paragraph 7 of the New Jersey Constitution.

61. The New Jersey Constitution also provides for action by this Court to invalidate an unlawful map adopted by the NJRC and remanding for further proceedings, with Article II, Section II, Paragraph 9 stating that in the event “a plan certified by the commission is declared unlawful,”

the NJRC “shall reorganize and adopt another Congressional district plan in the same manner as herein required”

62. Thus, the actions of the NJRC are subject to judicial review under the New Jersey Constitution.

63. In contrast, the New Jersey Constitution provides that the Council on Local Mandates, pursuant to Article VIII, Section II, Clause 5 shall render “decisions” that are “political and not judicial determinations,” thus immunizing them from judicial review.

64. The New Jersey Constitution also generally affords the judiciary with the power of judicial review, with Article VI, Section V specifically providing that prerogative writs are superseded, and in lieu thereof, relief shall be heard by the Superior Court upon rules established by this Court.

65. The New Jersey common law and case law generally establish that governmental actions are subject to judicial review and may be set aside if arbitrary, capricious, and unreasonable.

66. Chair Wallace’s reasoning and actions fail to satisfy any modicum or standard of judicial review that may be held applicable to the NJRC under New Jersey law, including being arbitrary, capricious, and unreasonable.

67. The NJRC’s adoption of the Democratic map is justiciable under the New Jersey Constitution and must be set aside by this Court because its adoption was based upon an arbitrary, capricious, and unreasonable vote and reasoning by Chair Wallace.

WHEREFORE, Plaintiffs respectfully request that this Court:

A: Order that the NJRC’s establishment of Congressional districts on December 22, 2021 be vacated;

B: Order that the establishment of Congressional districts be remanded to the NJRC for further proceedings in accordance with the New Jersey Constitution;

C: Order that the Secretary of State be enjoined from taking any actions effectuating the Congressional districts approved by the NJRC on December 22, 2021; and

D: All such other relief that this Court deems appropriate and necessary.

**COUNT II – VIOLATIONS OF ARTICLE I, PARAGRAPH 1 OF NEW JERSEY
CONSTITUTION**

68. Plaintiff repeats and realleges each of the foregoing allegations and makes the same a part hereof as if set forth at length

69. Article I, Paragraph 1 of the New Jersey Constitution “has been interpreted as conferring the right to equal treatment under the law, a right analogous to the guarantee of equal protection under the Fourteenth Amendment to the New Jersey Constitution.” Doe v. Poritz, 142 N.J. 1, 94 (1995). “Although conceptually similar, the right under the State Constitution can in some situations be broader than the right conferred by the Equal Protection Clause.” Ibid.

70. This constitutional provision has also been interpreted as affording a due process right. See Greenberg v. Kimmelman, 99 N.J. 552, 563 (1985).

71. The NJRC’s adoption of a Congressional redistricting map that will classify and bind New Jersey voters for the next 10 years implicates the fundamental right of voting that is subject to equal protection and due process protections.

72. Chair Wallace’s reasoning and actions fail to satisfy any modicum or standard of judicial review that may be held applicable under the State Constitution’s equal protection and due process guarantees, including under either rational basis or strict scrutiny review.

WHEREFORE, Plaintiffs respectfully request that this Court:

A: Order that the NJRC's establishment of Congressional districts on December 22, 2021, be vacated;

B: Order that the establishment of Congressional districts be remanded to the NJRC for further proceedings in accordance with the New Jersey Constitution;

C: Order that the Secretary of State be enjoined from taking any actions effectuating the Congressional districts approved by the NJRC on December 22, 2021; and

D: All such other relief that this Court deems appropriate and necessary.

COUNT III – VIOLATIONS OF FOURTEENTH AMENDMENT TO THE UNITED STATES CONSTITUTION

73. Plaintiff repeats and realleges each of the foregoing allegations and makes the same a part hereof as if set forth at length

74. The Fourteenth Amendment to the United States Constitution contains a procedural due process and equal protection right that is binding upon the States, and in turn, the NJRC.

75. Case law provides that issues involving the fundamental right of voting are subject to strict scrutiny review.

76. Case law provides that issues that do not involve such fundamental rights or suspect classifications are subject to rational basis review.

77. The NJRC's adoption of a Congressional redistricting map that will classify and bind New Jersey voters for the next 10 years implicates the fundamental right of voting that is subject to equal protection and due process protections.

78. Chair Wallace's reasoning and actions fail to satisfy any modicum or standard of judicial review that may be held applicable under the Federal Constitution's equal protection and due process guarantees, including either rational basis or strict scrutiny review.

WHEREFORE, Plaintiffs respectfully request that this Court:

A: Order that the NJRC's establishment of Congressional districts on December 22, 2021, be vacated;

B: Order that the establishment of Congressional districts be remanded to the NJRC for further proceedings in accordance with the New Jersey Constitution;

C: Order that the Secretary of State be enjoined from taking any actions effectuating the Congressional districts approved by the NJRC on December 22, 2021; and

D: All such other relief that this Court deems appropriate and necessary.

21 CHAIRPERSON HON. WALLACE: Here.

22 Thank you.

23 And good morning again. I am

24 prepared this morning --

25 (Audio stops and starts.)

1 I would remind everyone that's on the
2 call to please mute your phones. Thank you very
3 much.

4 We'll try it again. As I was about
5 to say that I am prepared this morning to make a
6 very difficult decision. I say "difficult"
7 because both delegations have presented me with a
8 map that substantially satisfies the standards
9 proposed at the outset. I will list those
10 standards shortly.

11 To be sure, the citizens of New
12 Jersey have aided the commission greatly in the
13 process of formulating the two maps. The
14 commission held 10 hearings, between in person
15 and Zoom hearings, where almost 200 people
16 testified, while others submitted written
17 testimony and some even submitted proposed maps.

18 Following the public hearings, the
19 two delegations, considering the evidence,
20 submitted by the public began the process of
21 preparing their map.

22 I am fortunate to have had Judge
23 LeFelt as my special counsel and together we
24 prepared and suggested standards that each
25 delegation should consider in the map-making

1 process. Here are the congressional
2 redistricting standards we proposed:

3 1) Mapmakers shall establish 12
4 congressional districts that shall be
5 geographically contiguous and counting the total
6 population for each district to be formed.

7 (Interruption in the proceedings.)

8 CHAIRPERSON HON. WALLACE: And that
9 is Judge LeFelt.

10 In counting the total population for
11 each district to be formed, incarcerated
12 prisoners should be counted at their prior
13 addresses. Districts must be as equal in
14 population as possible to the ideal district
15 population of 773,585.

16 2) Mapmakers shall comply with the
17 Voting Rights Act, and all relevant Supreme Court
18 decisions apply in the Equal Protection clause
19 and the Apportionment clause. The map should
20 include sufficient numbers of minority/majority
21 districts, and provide the racial and language
22 minorities with reasonable opportunity to
23 participate in the political processes, and elect
24 representatives at of their choice whether alone
25 or in coalition with others.

1 Furthermore, any consideration of
2 race shall only be as necessary to avoid a
3 violation of the Voting Rights Act and shall be
4 narrowly tailored to satisfy the Act's
5 requirements.

6 3) Political subdivision boundaries
7 and communities of interest; that is, cultural,
8 ethnic, linguistic, economic and religious shall
9 be respected. Mapmakers shall not split
10 political subdivision boundaries and communities
11 of interest unless necessary to achieve
12 compliance with standards 1 or 2.

13 4) Competitive districts are favored
14 so long as compliance with standards 1, 2 or 4 --
15 or 3, that is, would not be significantly
16 hindered or impaired.

17 5) No district may be formed solely
18 to favor or disfavor any political party or the
19 election of any person.

20 6) To assist voters in assessing
21 incumbents and minimizing voter confusion,
22 districts may include the cores of existing
23 districts, provided the new district to be formed
24 will substantially comply with all of the
25 preceding standards.

1 7) All districts shall be as compact
2 and regularly shaped as possible unless deviation
3 is required to comply with any of the above
4 standards.

5 Each delegation engaged outstanding
6 map experts. It was my privilege to work with
7 them during this process. In addition to Judge
8 LeFelt's expert guidance, I have been greatly
9 assisted by the Electoral Innovation Lab at
10 Princeton University throughout.

11 Turning to this commission, the
12 chairs and their delegations are outstanding, and
13 clearly represented the interests of New Jersey
14 and their respective parties. Each member has
15 been extremely considerate throughout the process
16 and responded positively to the many comments my
17 team proposed in an effort to make a good map
18 even better.

19 The delegation spent four consecutive
20 days and evenings meeting with my team in an
21 effort to improve the respective map and to
22 convince me that their map was the better of the
23 two. You can imagine the process was not easy.

24 For example, in order to meet the
25 constitutional requirement of one person one

1 vote, each time we proposed a new configuration,
2 it caused other changes in the district or other
3 districts that were not always contemplated.
4 Nevertheless, in my view, the process produced
5 two constitutional maps.

6 In brief, both maps comply with the
7 Federal Equal Population mandate; each has 12
8 districts with substantially equal population.
9 Both maps satisfy the Voting Rights Act in that
10 each proposal contains five majority/minority
11 districts.

12 (Interruption in the proceedings.)

13 CHAIRPERSON HON. WALLACE: Both maps
14 satisfy the Voting Rights Act in that each
15 proposal contains five majority/minority
16 districts, I repeat.

17 Both maps consider race only to the
18 extent necessary to avoid a violation of the
19 Voting Rights Act, and those considerations were
20 narrowly tailored to satisfy the Act's
21 requirements.

22 Similarly, both maps were close to
23 one another in county and town splits and
24 considered communities of interest in each
25 district. Competitiveness, preservation of

1 district cores and compactness were also
2 satisfied in both maps.

3 The only area where one map pulled
4 ahead of the other is in partisan fairness; that
5 is, no district may be formed solely to be -- to
6 favor or disfavor any political party or the
7 election of any person.

8 Both maps were evaluated by my team
9 using various statewide tests for partisan
10 fairness. Without getting into the details of
11 the tests, I simply state that the results showed
12 that the partisan fairness would favor the
13 democratic's map. However, because neither
14 delegation used these tests, I have decided not
15 to give any weight to them in making my decision.

16 In summary, both delegations aptly
17 applied our standards to their map. In the end,
18 I decided to vote for the democratic map, simply
19 because in the last redistricting map it was
20 drawn by the republicans.

21 Thus, I conclude that fairness
22 dictates that the democrats have the opportunity
23 to have their map used for this next
24 redistricting cycle. Thank you. That concludes
25 my comments.

1 I open the floor to any chairs wish
2 to make a comment. Chair Fuller.

3 DELEGATION CHAIR FULLER: Thank you,
4 Chairman Wallace.

5 Good morning, everyone, here with us
6 today and watching us from home. It's a
7 privilege to be with you all here today at the
8 Statehouse for this incredibly important meeting
9 that carries tremendous significance for the
10 future of our state and the nation.

11 First and foremost, let me take --
12 let me thank Justice Wallace -- Chairman Wallace
13 for his service to the commission. Your
14 leadership has sought us a fair and collegial
15 process that we can all -- we were all honored to
16 have been a part of, and we thank you for your
17 service.

18 I want to thank my fellow
19 commissioners, my democratic colleagues, and the
20 republican delegation, particularly Chairman
21 Steinhardt, who have all given their time and
22 their effort and their focus on the citizens of
23 the state of New Jersey.

24 I would like to take a moment to
25 thank those who helped us develop this map. Our

1 staff led by our executive director Sarah Jones,
2 our legal team led by Raj Parikh, and our
3 mapmaker Tom Bonier.

4 From the outset, the democratic
5 commissioners had a primary goal to put forth and
6 develop a fair and representative map that
7 embraces the diversity of our state, not just for
8 the next election but for the next decade. We
9 wanted an open and transparent process, but
10 allowed for robust participation. And we're
11 proud to have convened more public hearings than
12 ever before with nearly 200 witnesses testifying.

13 We put forth a map for consideration,
14 which we will be voting on today, that we believe
15 is responsive to the voices of the public and
16 also the principles set forth by Chairman
17 Wallace. We have limited arbitrary splits in
18 towns and counties to ensure that citizens select
19 the representatives and not the other way around.
20 In fact, nine counties have no municipal splits
21 at all and only 14 of our state's 565
22 municipalities are split.

23 The map maintains core competitive
24 districts and does not gerrymander to favor one
25 political party. We maintain all of the existing

1 majority/minority districts and have ensured a
2 decade of real and meaningful representation by
3 minority voters.

4 In a state where people of color
5 represent more than 48 percent of the population,
6 we believed it is our responsibility to fight for
7 the right of minority voters to choose a
8 representation and to increase opportunities for
9 minority representation.

10 In the wake of the Supreme Court
11 striking down parts of the Voting Rights Act, our
12 democratic commissioners understood that our map
13 must show leadership on the issue of racial
14 justice and be a map that represents all of New
15 Jersey not just the privileged.

16 We increased African American
17 population of district 10 maintaining a majority
18 African American district.

19 The map increases Asian American
20 influence reflecting our state's fastest growing
21 population and ensuring that the people of AAPI
22 descent will have an opportunity to participate
23 robustly in our democracy.

24 We preserved the Latino influence of
25 district eight, not diluting an important and

1 growing voice in our communities. These are just
2 some of the highlights of the map before you
3 today.

4 We believe the map achieves our
5 primary goal of creating a fair and
6 representative map and embraces the robust
7 political public participation we have heard over
8 the course of the past months.

9 On behalf of the most diverse
10 partisan delegation in history, and as the first
11 female chair, I again thank Chairman Wallace for
12 his service, and thank you for the opportunity to
13 offer these remarks.

14 CHAIRPERSON HON. WALLACE: I thank
15 you for your comments, Chair Fuller.

16 Chair Steinhardt.

17 DELEGATION CHAIR STEINHARDT: Thank
18 you so much. Thank you very much.

19 Chairman, thank you.

20 Grateful for the opportunity, of
21 course, to participate in this process. Grateful
22 to Chairwoman Fuller for her professionalism and
23 those of my democratic counterparts for their
24 service. They were all a pleasure to deal with.

25 Grateful especially to my republican

1 colleagues, Michele Albano, Jeanne Ashmore, Lynda
2 Pagliughi, Mark Duffy and Mark LoGrippo for their
3 time and service, held each of you in the highest
4 regard, and your time and energy have earned the
5 respect of your colleagues and your state.

6 Our map was designed to empower New
7 Jersey voters. The final map, we feel, is just
8 the antithesis of that. Our map provided voters
9 including minority voters with meaningful
10 opportunities to impact elections and met or
11 exceeded every standard.

12 We were provided with five
13 majority/minority districts and nine districts of
14 the minority voting age population above 30
15 percent. The distribution of minority population
16 among all districts accurately reflected the
17 state's diverse nature.

18 After consideration the testimony
19 from 11 public hearings and a full adoption and
20 agreement with Special Counsel LeFelt's
21 philosophy that towns and counties are a strong
22 measure of communities of interest, we believe we
23 improved the current map.

24 Our map left nearly 85 percent of the
25 state's voters in their current districts

1 avoiding unnecessary voter confusion, and
2 maintained five districts that gave voters the
3 opportunity to meaningfully impact general
4 election outcomes and elect a candidate from
5 either party.

6 To be candid, we're disappointed in
7 the final result. We're disappointed in a
8 process that disenfranchises most of the state's
9 voting population. We're equally disappointed in
10 a process that purported to promote equity,
11 fairness and competition, but in the end eschewed
12 those virtues.

13 We went to the 13th member with a map
14 that we believe empowered the greatest number of
15 New Jersey voters, and our caucus will vote today
16 in that spirit and that spirit alone.

17 CHAIRPERSON HON. WALLACE: Thank
18 you, Stan -- chair -- Chair Steinhardt.
