[1] Informational and collaboration-based portals in operation at DHS and its components that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are "members" of the portal or "potential members" who seek to gain access to the portal.

[2] DHS defines personal information as "Personally Identifiable Information" or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. "Sensitive PII" is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

[3] When data is sent over the Internet, each unit transmitted includes both header information and the actual data being sent. The header identifies the source and destination of the packet, while the actual data is referred to as the payload. Because header information, or overhead data, is only used in the transmission process, it is stripped from the packet when it reaches its destination. Therefore, the payload is the only data received by the destination system.

[4] PII may be shared, received, or connected to other DHS systems directly, automatically, or by manual processes. Often, these systems are listed as "interconnected systems" in Xacta.

Please describe rationale for privacy compliance determination above.

CBP Privacy is submitting this PTA because CBP' (b) (7)(E) s a collaborative effort between CBP's Office of Intelligence (OI) and the Office of Professional Responsibility (OPR) to identify

(b) (7)(E)

(b) (7)(E) will require the collection of PII that will be limited to individuals ████ (b) (7)(E)

(b) (7)(E)

will collect PII through social media posts made in public forums, reports from concerned citizens, media reporting, and (b) (7)(E)

Information acquired will be

evaluated by CBP personnel (b) (7)(E)

(b) (7)(E)

No PII, including but not limited to screennames, social media handles, and IP address will be retained unless it is in support of the (b) (7)(E)

The DHS Privacy Office agrees that this initiative is privacy-sensitive, requiring PIA and SORN coverage. **CBP Privacy is required to complete a New PIA to discuss the new information collection used to** (b) (7)(E)

(b) (7)(E)

(b) (5), (b) (7)(E)

The DHS Privacy Office requires that a training be created for all individuals supporting the search and analysis of social media for CBP employees who are trained as Law Enforcement Officers/Agents, who access, use, and protect PII to determine what is and is not a 1st Amendment protected activity.

CBP should understand the prohibitions surrounding collection of 1st Amendment-protected speech and activities, such as protest, pursuant to 5 U.S.C. § 552a(e)(7) requiring that agencies "maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity." During this use case, CBP will exercise the judicial "law enforcement activity" exception due to a) the limited nature in which **(b) (7)(E)** is collecting information in order to **(b) (7)(E)** **(b) (7)(E)** during the trial; and b) the limited timeframe of the potential collection (limited to the trial period only).

(b) (5)

This PTA will expire on September 2nd, 2018 due to the reliance of a PIA and potentially a SORN.
