Implementation of the Presidential Memo

A team has been established and is tasked with deriving a process utilizing sound statistical methods and meeting tests of operational feasibility, to achieve the goals of directives from Secretary Ross regarding implementation of the Presidential Memo. To achieve this, the Census will:

- Build upon the work we have already done based on Executive Order 13880, "Collecting Information about Citizenship Status in Connection with the Decennial Census".
- Use all administrative records to the extent they are available. Using these records, in combination with other data already obtained regarding citizenship status, we will further refine the non-citizen category.
- Incorporating this work into the schedule to meet the current legal mandates.
- Implementation of the Presidential Memo not affect the field work of the 2020 Census in any way. **The 2020 Census will still count everyone once, only once, and in the right place.**
