Good Morning Amy,

I understand completely that you cannot alert on planning or scheduling of First Amendment demonstrations. We are more concerned with the threats of "armed protests" and people planning on bringing firearms to the District of Columbia on January 6th (or the rest of January for that matter).

Thanks again,

[REDACTED]

Hi [REDACTED],

Thank you for flagging the alert below. I will route this feedback to my product team for review. At first glance, it looks like the end user is sharing their physical location of Washington DC - which is a key indicator for our AI to pick up on when geo-tagging.

As for the upcoming January 6th event, I will be sure to follow up with my product team to make sure they are tracking on the potential for public safety incidents.. Please keep in mind, we cannot alert on the planning or scheduling of protests or demonstrations. We can alert on public safety concerns relating to these types of events. This is a big part of the terms and conditions we must follow and adhere to with our social media partners and this is also part of the terms and conditions in the contract between DC and Dataminr.

If you have any questions or additional feedback, please let me know.

Thanks so much!

Amy

Hi Amy,

I hope you are having a good weekend. Please see below FirstAlert. This is another bad geocoded event. We believe this took place in Baltimore, MD, but it definitely was not DC.

On a side note, we are seeing a lot of social media chatter about a big January 6th protest in DC. Unfortunately, we discovered it manually before FirstAlert picked it up. Since this event is tied directly to the November 14th and December 12th events that turned violent, any additional filters or triggers you can implement to locate more information on this event would be very helpful. Please let me know if a telephone conversation would be helpful in setting these up.

Thank you,

[REDACTED]

FIRST ALERT

URGENT

06:21pm December 19, 2020 EST REPORTER

Man found dead inside parked car on 1900 block of Vine Street Northwest in Washington, DC: Reporter Photo via Twitter.

ORIGINAL PUBLIC TWEET (06:18pm December 19, 2020 EST)

Homicide Detective Sgt. Sean Jones stands beside the body of a 48-year-old man who was found dead next to a woman inside a car parked in the 1900 block of Vine Street. An officer on patrol in the area found the gunshot victims slumped over in the car around 1:30 p.m. on Saturday.
