I think that they granted access initially and then only activated the 6 people who were evaluating.

We had 2, Intel had 2, and PIO had 2. That's all they were granting

Great – thank you. Hope you are feeling better! I’m also looping our two members who have access to the system.

Absolutely. And I apologize for not getting back to you soon. [REDACTED]
[REDACTED] just getting back to office today after a few out. I am copying Vince and Kimberlee from the Sprinklr team and they can walk you through how to set things up and get settled back into day-to-day monitoring.

H [REDACTED]

Now that some of the dust from inauguration has settled down, would it be possible to expand the key word search beyond inauguration? I’d like to test the system with crime and other situational awareness information. Perhaps we can touch base on it either later today or early next week?

Thank you,
[REDACTED]

Just wanted to check-in to see if anyone had any questions or issues? I noticed the queues were no being used, but hopefully the monitoring and search is helpful. Let me know if anyone has any questions. Thanks!

Hello All:

The Sprinklr Team and I have put together a dashboard and basic workflow that should allow you all easily view and dig into the social content. We want to give a quick overview before we turn on your accounts.

We plan to set-up the account to tonight and you guys can start using tomorrow. Thanks for all your assistance. If this time doesn't work for some, I'm happy to do one-on-one anytime via WebEx.
