Better results with the right data

We're excited to launch the all-new [Social Media Comprehensive Report](#) — a new, powerful way to research a subject's digital identity.

TransUnion's TLOxp[®] solution now offers search and report functionality for access to (publicly-facing) social media and web data to support and enhance your investigations, research and due diligence. In a single search, you can now reveal more about a subject's digital identity through information not readily accessible via other forms of public records data - helping you gather information and assess risk more effectively.

The information you're looking for could be closer than you think.
