MEMORANDUM

TO: Criminal Intelligence Branch Members

FROM: Lieutenant Michael J. Pavlik
Criminal Intelligence Branch

DATE: April 20, 2011

SUBJECT: Operation Summer ICE Social Media Teams

As part of the Summer Crime Initiative, Operation Summer ICE, the Criminal Intelligence Branch (CIB) has been tasked with creating Social Media Teams. The mission of these teams is to monitor social media websites for possible information on criminal activity and that care is exercised so as to protect person’s constitutional rights, and that matters investigated are confined to those supported by a legitimate law enforcement purpose. To that end, the following guidelines shall be followed.

Members may observe and monitor social media websites that are open to the public, with no invitation, approval or membership required. No prior approval is necessary.

Should members observe or have a reasonable suspicion that a social media website may have posts or contain information concerning criminal activity and criminal associations and such site requires an invitation, approval or membership a written request articulating such reasonable suspicion shall be submitted to the CIB lieutenant for approval prior to requesting to join or create a connection.

Members shall only monitor such websites for discussions of possible criminal activity and criminal associations and shall not engage discussions or interactions unless prior approval has been given by the CIB lieutenant.

In exigent circumstances approval maybe requested by phone followed by a written request the next business day.

Members shall print or document information only as it pertains to having reasonable suspicion of criminal activity or associations.
Approval for the above monitoring will only be approved for thirty days. Prior to the expiration members shall request a written request for an extension to the CIB lieutenant as necessary.

The CIB lieutenant shall maintain a file of all requests and shall conduct a review to determine if reasonable criminal suspicion still exists prior to the 30 day expiration.

Members shall continually monitor open pages that may have ties to known gang areas. Additionally, upon learning of a violent incident members shall query all known sites for the area that the incident occurred and any known rivals for any information that could assist in the case as well as assist in identifying any potential retaliation.

Members shall prepare a weekly report for each OSS area detailing any information gleaned. However, should a member gain information regarding any criminal acts, potential suspects, or acts of retaliation, this information shall be forwarded ASAP.
(Special Note): Information regarding First Amendment assemblies is often fluid and subject to change. The below information was obtained through law enforcement and open source venues. Updated information and events acquired since the last report will be designated in Red.

We will have to put together an hourly update reference anything found on social media. It can be an email and sent to the group. Make sure its vetted if possible and put any findings on it as well.

A/Capt will then forward to the Command Staff.

Thanks and this is until further notice.

Sgt asked that I create this group to catalogue relevant social media related to upcoming protests. Captain will forward out whatever information needs to be shared with any other folks, but any hits that we find I will go ahead and catalogue in our own internal document which will not be released unless authorized. Please let me know if you have any questions.

1,498 people are going.

I see this on their website but can’t believe they will get anywhere near this number. 300-500 at the top end I’m thinking.

We will have to put together a hourly update reference anything found on social media. It can be an email and sent to the group. Make sure its vetted if possible and put any findings on it as well.

A/Capt. will then forward to the Command Staff.

Thanks and this is until further notice.

Hi

Thanks again for chatting and your honest feedback this morning. I've attached a one sheeter and some use cases for you to pass up to Commander Ennis. I'd be happy to run another demo for him, or if you want to show him the software yourself I'll happily extend your trial.

Thanks again for your help!

Receive alerts when important posts are made from within your Geofeeds

If you have the recording feature activated on your account, you can receive real-time email alerts when posts are made from within your recorded Geofeeds. Each alert can be triggered by up to 50 keywords and/or usernames and applied to multiple Geofeeds. Here's how to set them up (screenshot below):

1. While viewing an active recorded Geofeed, click the alerts icon in the main toolbar
2. Give your alert a name
3. Enter up to 50 keywords and/or usernames, comma delimited
4. Apply the alert to one or multiple active recordings
5. Select the members of your account who should receive the alerts
6. Click Save

That's it! When posts are made that match your criteria, an email will be sent with the details and a link to view the item in Geofeedia. If you don't have the recording feature activated in your account but would like to be able to archive content from your feeds and use alerts, get in touch with our support team at support@geofeedia.com.

Searcher vs. Searchee: Do you know the difference?

In the online world, we are typically either searching for someone or someone is searching for us. This month, we share the best tips on the right way to search for and find information about the people in your life -- whether it’s your long lost family and friends or a potential new love interest. The flip side of this coin is understanding who’s searching for you and why. Our two new blog articles on "Searching for Someone? How to Track Them Down the Right Way" & "Can You Find Out Who is Searching for You Online" will help you understand the difference between a searcher vs. a searchee.

Social Media Investigations: Gun Recovery Unit Edition

Detective Sergeant JTTF
Attention Gun Recovery Unit!!!

I am teaching this class as a supplemental to your current knowledge base of social media. It was designed using best practices acquired over my time doing social media investigations. Things we are going to cover today:

• Personal Use of the Social Media
• Legal Process Pitfalls ( and how to avoid them)
• Online Covert Accounts
Understanding the Anti-Customer (everything is going to be OK, guys)
Personal Use of Social Media

We are getting crushed by Internal Affairs and Citizen Complaints on how we conduct ourselves in our personal lives. Understand that every conversation you make could be screen captured and taken out of context.
Personal Use of Social Media

There is no such thing as a secret group on social media. Be cognizant that anything you say even in jest can be taken out of context and exploited.
Personal Use of Social Media

Path of least resistance: Do not use social media while on duty.
Personal Use of Social Media

Understand as a member of the Metropolitan Police Department, any comments you make reflect on the Department. Context and humor are subjective.
Personal Use of Social Media

This includes blogs and media outlets.

Legal Process for Social Media
Legal Process and Getting What you Want

• There are three types of legal process that an Investigator will find themselves issuing in an investigation. Those are:

  • 1) Preservation Letters
  • 2) Search Warrants
  • 3) Emergency Disclosures
Legal Process and Getting What you Want

Preservation Requests

↑ 18 U.S.C. §2703(f)(1) states: “A provider of wire or electronic communication service or a remote computing service, upon the request of a governmental entity, shall take all necessary steps to preserve records and other evidence in its possession pending the issuance of a court order or other process.”

• Good for at least 90 days
• Retroactive

Legal Process and Getting What you Want

At this point in your career, I am not going to walk you through the warrant process. What I can do is highlight recurring issues with social media search warrants. I have made all of these mistakes myself.
Legal Process and Getting What you Want

1) Training and Experience

If you are using the phrase “training and experience,” you need to be able to articulate what training and experience you have beyond the Maurice J Turner Institute of Police Science.

**Places to get Training**

- Private Sector offerings
- Community College
- Government-affiliated offerings (NCTC, HIDTA)

If you want the training, hunt for it. If the Department won’t grant you Admin Leave, take personal leave. INVEST IN YOURSELF.
Legal Process and Getting What you Want

1) Training and Experience

If you are using the phrase “training and experience,” you need to be able to articulate what training and experience you have beyond the Maurice J Turner Institute of Police Science.

Articulating Experience

We all have life experience. In addition to on-the-job experience, your personal life plays a role in justifying that your training and experience...
Legal Process and Getting What you Want

2) “I know statements”

How do you know? Is it just template language or do you actually know?
3) Language is important

If slang is used to describe a firearm, be prepared to discuss how you know a _____ is a firearm or ______ is a shooting. Visuals and criminal records help.
Legal Process and Getting What you Want

4) High Crime Area

The Gun Recovery Unit is not the low crime response unit. If you are in area, there is probably a reason. Instead of exclusively using high crime area, articulate how you happened upon an investigation or a subject. Things that help:

- CRS Analytical Products
- Heat Maps
- Deployment Orders and historical knowledge
5) The social media platform rejected my warrant
Legal Process and Getting What you Want

Second Most Common Reason: No one caught an error on the law enforcement side.
• Does the warrant match the affidavit?
• Is the URL correct?
• Is the charge correct?
• Did you use a template?
Legal Process and Getting What you Want

Emergency Disclosures

18 U.S. Code § 2702 - Voluntary disclosure of customer communications or records

A social media platform can provide you subscriber level information on an account if you can articulate (in good faith), that an emergency involving danger of death or serious physical injury to any person requires disclosure without delay of communications relating to the emergency.
Legal Process and Getting What you Want

Emergency Disclosures

These should not be used in lieu of legal process. It’s a handshake agreement with a company to mitigate a threat, with the expectation that legal process will be forthcoming (if applicable).
Legal Process and Getting What you Want

Emergency Disclosures

The two requirements needed for most companies are:
• A demonstration that there is a threat
• A demonstration that the threat is imminent (not eminent)

Emergency Disclosures

An Emergency Disclosure may require an additional disclosure request

Legal Process and Getting What you Want

A threat is mitigated with an arrest. If the imminent threat from 37th Place is revealed to be the 37th Place from Vero Beach, contact the Vero Beach Police Department or State Police.

Use of Undercover Accounts

Why create an Online Covert Account (Undercover account)?
Use of Undercover Accounts
Use of Undercover Accounts

There are two variations of an OCA, and they should be kept exclusive of each other. Overt accounts are used to monitor opensource social media, and Covert accounts are used for focused contact on predicated individuals.
Use of Undercover Accounts

Overt Accounts

• An Overt Account monitors social media that is otherwise publicly viewable. The three platforms this is most often seen in are:
  • Facebook
  • Instagram
  • Twitter
Use of Undercover Accounts

Covert Accounts
• A Covert Account is used for focused investigations. We gain information on bumping (contacting) subjects through a starting point (we need to have a reason). These starting points could include:
  • IQ Reports
  • Tips from Citizens
  • Tips from Officers
  • Social Media Aggregators
  • Hashtags or Names from your experiences as a law enforcement Officer
  • Gang Books and MPD Databases

Building Your Accounts:

With overt Accounts, no contact should be made with subjects. These are simply made to view opensource platforms. Every search or viewing merits documentation.

Building Your Accounts:

With covert Accounts, the end goal is an arrest. This may be done through an operation that introduces an Undercover or a Confidential Informant, or in the case of threats by way of a search warrant for the account.

We’re excited to launch the all-new Social Media Comprehensive Report — a new, powerful way to research a subject's digital identity.

TransUnion’s TLOxp® solution now offers search and report functionality for access to (publicly-facing) social media and web data to support and enhance your investigations, research and due diligence. In a single search, you can now reveal more about a subject’s digital identity through information not readily accessible via other forms of public records data - helping you gather information and assess risk more effectively.

The information you’re looking for could be closer than you think.

In an effort to continually enrich our offerings, we recently launched the Social Media Comprehensive Report - a newly upgraded and more powerful way to research a subject's digital identity.

TransUnion's TLOxp® solution now includes search and report functionality when accessing publicly-facing social media and web data, helping support and enhance your investigations, research and due diligence. Today, a single search can reveal more about a subject's digital identity with information not readily accessible via other forms of public records data - allowing you to gather intel and assess risk more effectively.
The information you're looking for could be closer than you think.

Try it now >

We deliver data-fast

TransUnion has entire departments dedicated to data management and hygiene, with data scientists pushing the limits of our analytics-based models to improve the quality of our information.

Law enforcement and government agencies can capitalize on our affinity for fresh data by scrubbing files - in bulk - in as quickly as several hours. This translates to more efficient operations.

Good afternoon,

In preparation for the FY19 service agreements with TLOxp, Ms. McAffrey has sent me the pricing options below. I am not so sure if it would be beneficial to make any changes to our existing agreement, so I would like to forward this for your review. Please let me know if you would like to continue with our current agreement or if it would be more cost efficient for MPD to do the bundled pricing.

Thank you,

Mary

Subject: TLOxp Pricing Options Metropolitan Police Dept. - DC

As we discussed we have other pricing options for your agency and I wanted to send over a few of those options for your new fiscal year beginning 10/1/18.

Your current agreement with us is $1,100/m for 5,000 transactions per month which you exceed most months. We can either keep it at the current rate or increase your transactions to 6,000 per month at the rate of $1,320 per month. Any searches over the 6,000 will be invoiced at $.22 per transaction.

The flat rate includes all searches and reports excluding: Social Media ($1), Vehicle Sighting Reports ($8), Real Time Phone Carrier Search ($.30) or Super Reverse Phones ($.30). If these searches are run they will be invoiced over and above the flat rate.

We also provide bundled pricing which includes all searches and reports plus Social Media, Real Time Phone Carrier Search, and Super Reverse Phones. The rate for 5,000 transactions is $1,900 per month, any searches over the 5,000 a month will be invoiced at standard retail rates.

I will give you a call on Thursday to go over these with you but feel free to give me a call if you have questions before.

Thank you,

Mary

Dear Valued Customer,

On Jan. 1, 2019, Vehicle Sightings searches and reports within TransUnion’s TLOxp® solution will sunset and access will be discontinued at that time. We sincerely apologize for any inconvenience this may cause. TLOxp will continue to offer access to valuable, industry-leading data, including more than 12 billion vehicle registration records.

We’re constantly improving the quality and coverage of our available datasets, while simultaneously working to enrich our advanced, analytics-based models to deliver results in the most meaningful way. TLOxp continues to evolve, currently providing access to more than 100 billion records covering over 95% of the U.S. population.

Recent enhancements include:

- The addition of nearly 150 million unique emails
- New, thin-file consumer information, boosting available data on young adults and those with little credit history
- Enhanced place of employment data to provide more relevant results
- New, state-sourced deceased data
- Enhanced phone scoring to improve right party contact

If you have questions on any TLOxp features, call 800-856-5599 or your account manager Monday - Friday: 8 a.m. - 8 p.m. Eastern Time.

Thank you,
The TransUnion TLOxp Customer Support Team

Dear TLOxp administrator,

As part of our product lifecycle upgrades, we'll soon be transitioning the 411 Search within the TLOxp® solution to end-of-life status-rendering it unavailable as of January 31, 2017.

However, we remain committed to providing you with actionable information, along with services that enhance your ability to mitigate risk and improve due diligence. As a result, you may continue to access advanced phone data through our 411+ Search*.

With 411+ Search, you'll enjoy all the same benefits of 411 Search, but you can also access unlisted numbers, mobile phone numbers, VOIP numbers, plus historical data.

If you have questions on any TLOxp features, call 800-856-5599 or contact your account manager Monday-Friday: 8 a.m.-8 p.m. Eastern Time.

Thank you,

The TransUnion TLOxp Customer Support Team

*411+ is not a free search product and fees may apply in accordance with your organizations billing arrangement. Please contact your account manager or TransUnion TLOxp Customer Support with billing related questions.

TLOxp is available to qualified Subscribers for permitted uses. Subject to individual Subscriber data permissions.

Carolyn,

Can we discuss on Friday?

Do you all need anything from me on this?

I think we can pull it from the account. Are you able to set me up as an alternate (administrative) user?

Do we have a history for the last 6-12 months of how many checks we have been doing and what our bill has been?

If this is something I need to pull from the account, please let me know.

Good afternoon,

In preparation for the FY19 service agreements with TLOxp, Ms. Mcaffrey has sent me the pricing options below. I am not so sure if it would be beneficial to make any changes to our existing agreement, so I would like to forward this for your review. Please let me know if you would like to continue with our current agreement or if it would be more cost efficient for MPD to do the bundled pricing.

Thank you,

Subject: TLOxp Pricing Options Metropolitan Police Dept. - DC #

As we discussed we have other pricing options for your agency and I wanted to send over a few of those options for your new fiscal year beginning 10/1/18.

Your current agreement with us is $1,100/m for 5,000 transactions per month which you exceeding most months. We can either keep it at the current rate or increase your transactions to 6,000 per month at the rate of $1,320 per month. Any searches over the 6,000 will be invoiced at $.22 per transaction.

The flat rate includes all searches and reports excluding: Social Media ($1), Vehicle Sighting Reports ($8), Real Time Phone Carrier Search ($.30) or Super Reverse Phones ($.30). If these searches are run they will be invoiced over and above the flat rate.

We also provide bundled pricing which includes all searches and reports plus Social Media, Real Time Phone Carrier Search, and Super Reverse Phones. The
rate for 5,000 transactions is $1,900 per month, any searches over the 5,000 a month will be invoiced at standard retail rates.

I will give you a call on Thursday to go over these with you but feel free to give me a call if you have questions before.

Thank you,

Mary

Do we have a history for the last 6-12 months of how many checks we have been doing and what our bill has been?

If this is something I need to pull from the account, please let me know.

Thanks

Good afternoon,

In preparation for the FY19 service agreements with TLOxp, Ms. Mcaffrey has sent me the pricing options below. I am not so sure if it would be beneficial to make any changes to our existing agreement, so I would like to forward this for your review. Please let me know if you would like to continue with our current agreement or if it would be more cost efficient for MPD to do the bundled pricing.

Thank you,

As we discussed we have other pricing options for your agency and I wanted to send over a few of those options for your new fiscal year beginning 10/1/18.

Your current agreement with us is $1,100/m for 5,000 transactions per month which you exceeding most months. We can either keep it at the current rate or increase your transactions to 6,000 per month at the rate of $1,320 per month. Any searches over the 6,000 will be invoiced at $.22 per transaction.

The flat rate includes all searches and reports excluding: Social Media ($1),
Vehicle Sighting Reports ($8), Real Time Phone Carrier Search ($.30) or Super Reverse Phones ($.30). If these searches are run they will be invoiced over and above the flat rate.

We also provide bundled pricing which includes all searches and reports plus Social Media, Real Time Phone Carrier Search, and Super Reverse Phones. The rate for 5,000 transactions is $1,900 per month, any searches over the 5,000 a month will be invoiced at standard retail rates.

I will give you a call on Thursday to go over these with you but feel free to give me a call if you have questions before.

Thank you,

Mary

Thank you! I’ll contact TLO to let them know that we’ll do the 6,000/month next FY.

I agree. CRS is probably the biggest user of TLO. We are a close second. We probably perform most of the searches that cost us a little extra.

Thanks Carolyn! If this is consistent with CID’s utilization, then it may be best to just do the increase to 6,000 per month and add a little more funding for overages.
Thanks I also received this feedback from the ISS regarding TLO and the usage of Social Media, Vehicle Sighting Reports, Real Time Phone Carrier Search, or Super Reverse Phones.

"From what I understand, they mostly use TLO for phone number and address searches but that's it. They run social media searches in TLO but I believe its more cumbersome than Accurint and the results vary. The vehicle sighting report function is used sporadically at best.

I know I have never used the Real-time phone carrier or super reverse phones tools and neither has Ebony or Lauren.

Generally, now that the team has Accurint, TLO is used more of a backup rather than a primary.”

That seems to line up with the overall trend of the TLO usage.

Good morning,

Thank you both for taking the time to consider the options for TLOxp. I *think* we can find some use with the attached report that I downloaded from the website to determine how MPD should move forward in FY19.

Thanks,

Do you all need anything from me on this?
I think we can pull it from the account. Are you able to set me up as an alternate (administrative) user?

Reminder: PIN code delivery via email will no longer be supported as of November 10th, 2016.

Dear [Name],

TransUnion considers the security of the data we provide to be critically important. To support this, we are excited to provide you with new security features that enable your organization and TransUnion to better protect the data within your account.

We have improved our two-factor authentication features to increase account security by providing users with the option to deliver PIN codes via mobile phone SMS texts or the Google Authenticator app.

Administrator action required

As an administrator for your company's TLOxp® account, you are required to take action.

Option 1: Mobile phone SMS

For users choosing to switch to PIN code delivery via SMS:

1. In TLOxp, navigate to [My Account / Users / Edit User] or click HERE and add their mobile phone number to their user profile.
2. Then go to Preferences on the Edit User page and select SMS for the "Send Pin Code via" option.

Option 2: Google Authenticator

Users who prefer to use the Google Authenticator app can set up this authentication option individually by logging into TLOxp and following the instructions HERE in Preferences. Note that these users must install the Google Authenticator app on their mobile devices.

Option 3: Whitelist Public Facing Static IP

For organizations with policies that limit user access to mobile devices, you may provide us with your IP address for whitelisting. This can be accomplished by having an account administrator email TLOxp Customer Support at TLOxpSupport@transunion.com with the desired IP address to whitelist. Whitelisting an IP will enable users to login from a trusted location without the need to send a PIN code via SMS or the Google Authenticator app.
The users listed below must switch to PIN code delivery via SMS or Google Authenticator:
If you have any questions, please contact our team of dedicated specialists at 800-856-5599.

Sincerely,

TransUnion | TLOxp
