

CLEAR[®] HELPS INVESTIGATORS
CLOSE CASES FASTER.

E0003
THOMSON REUTERS™

CLEAR IS THE ONE-STOP SOURCE FOR KEY INVESTIGATIVE DATA AND TOOLS.

CLEAR, designed specifically for law enforcement and government investigators, offers fast access to current data and tools. On CLEAR, you'll find information that is:

- **Complete** – a vast collection of proprietary and public records, including comprehensive cell phone and utilities data
- **Current** – with live gateways that connect you to real-time information
- **Deep** – pulls data from social networks, blogs, news, and more
- **Usable** – with customizable reports, Web Analytics, mapping, and link charts
- **Affordable** – predictable, flat-rate pricing

The screenshot displays the CLEAR search interface. At the top, there is a navigation bar with the CLEAR logo, a search icon, and several menu items: Search, My Results, My Workspace, Account Tools, My Alerts, History, Summary, Online Help, and Training. A notification badge indicates '1 notification'. Below the navigation bar, there are tabs for Person, Business, Asset, Phone, License, Court, and Search All. The main content area is divided into two sections: '1 Search Criteria' and '2 Data Sources'. The 'Search Criteria' section contains various input fields for personal information such as Last Name, First Name, Middle Initial, Date of Birth, Age From, Age To, SSN, DL Number, Address, City, County, Phone Number, Secondary Last Name, Email, Screen Name, NPI Number, State/Terr, Canadian Province/Terr, and Zip Code. There are also buttons for 'Search Help' and 'Reset Fields'. The 'Data Sources' section lists several data sources with checkboxes: Public Record People, Public Record Criminal & Infractions, NPI Records, Real-Time Incarceration & Arrest Records, and Web Analytics. A 'Run Search >>' button is located at the bottom right of the search criteria section.

A user-friendly design makes learning to use CLEAR fast and easy – no extensive training is required.

Save search time and effort.

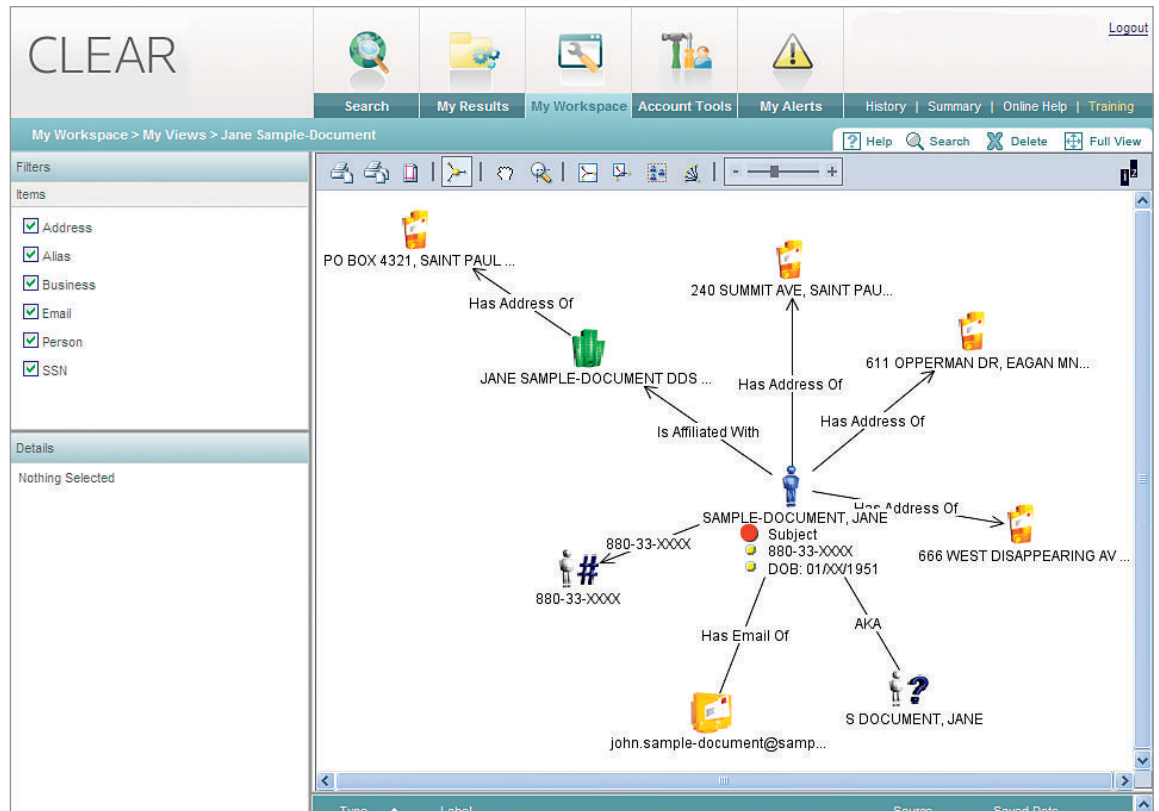

CLEAR cuts through irrelevant data by:

- Providing an easy-to-use interface that allows intuitive navigation
- Searching multiple databases – public, proprietary, and Web – at the same time
- Offering Search All, which includes all databases in a single search
- Filtering out unneeded data, based on date, age, “and/or,” and other restrictions you set
- Using entity resolution to consolidate search results and eliminate duplicate records
- Scoring data based on its relevance to your search criteria and listing the most relevant results at the top, where you can spot them easily
- Allowing partial search on date of birth, Social Security number, license plates, and street names

Find real-time, comprehensive data.

CLEAR offers you a vast collection of public and proprietary records. Live gateways take you to real-time information:

- **Phone data** – comprehensive cell phone, VoIP (Voice over Internet Protocol), landline, and pager coverage of all 50 U.S. states, Puerto Rico, various territories, and Canada
 - Reverse lookup
 - Caller ID names
 - Carrier contact information for subpoena purposes
 - Ported flags, for a previous cell phone company
- **Consumer and credit bureau data** – multiple independent sources
- **Motor vehicle registration data** – live access to 44 states

Graphical aids, such as linking and mapping in My Workspace, save you time by clarifying connections among individuals or events.

Other current data includes:

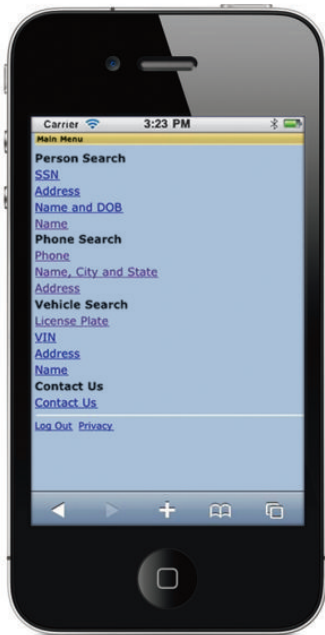

- **Utilities data** – from 70+ utilities nationwide, including electric, gas, cable, satellite, water, fuel oil, and other utilities
- **DMV records** – driver licenses and vehicle and watercraft registrations
- **Real property data** – nationwide owner data, new movers and household listings, deeds, tax rolls, sales, transfers, mortgages, refinancing, and historical records; you can even search with partial addresses
- **Records of persons** – addresses, professional licenses, death records, firearms and explosives licenses, U.S. military personnel documents, and Interpol and international tribunals' most-wanted and denied-persons lists
- **Criminal and court records** – state corrections department data, sexual offender lists, criminal prosecution records, bankruptcies, liens and other court judgments, DEA and FAA licenses, AOC, arrest records, and lawsuits

- **Business data** – company names, DBA listings, contact information, industry directories, affiliations, assets, and secretary of state and UCC filings

My Workspace offers instantaneous analysis.

One of CLEAR's most useful and popular features, My Workspace, lets you:

- Save your search results (automatically for seven days and longer if you choose)
- Visualize data connections with link charts and Google® Maps
- Drag data directly to i2 Analyst's Notebook for additional visualization
- Customize your report with the content you want, in the order you want to present it
- Print or email your complete report or sections of it to share information with coworkers, supervisors, and other agencies

Access CLEAR Mobile with your OnePass log-in credentials, then choose your search heading to get started.

If you are working on a tablet or iPad®, you can access CLEAR as you would with a full Web browser on a laptop or desktop computer.

Access data anywhere on your mobile device.

Every CLEAR contract includes data viewing on any wireless device with Internet access. CLEAR Mobile:

- Offers an intuitive interface
- Autodetects mobile log-ins and adjusts for optimal viewing and search
- Lets you search for a person, vehicle, or phone number or order a comprehensive national report
- Automatically saves search results in My Results for later viewing

Get training and help when you need it.

CLEAR offers flexible and FREE training and support to fit your needs, including:

- Online help, instructor-led e-classes, and self-paced tutorials
- User guides, manuals, and other product support materials
- Personalized over-the-phone training
- Classes at your workplace with local Thomson Reuters representatives and account managers
- Live seminars in various locations
- Customer technical assistance via toll-free phone (1-877-242-1229)

AVAILABLE ADD-ON DATA AND FUNCTIONALITY

The screenshot displays the CLEAR web analytics interface. At the top, the CLEAR logo is on the left, and navigation icons for Search, My Results, My Workspace, Account Tools, and My Alerts are in the center. A 'Logout' link is on the right. Below the navigation bar, a status bar indicates '42 Results found in 3 different sections for Sample-Document, Jane' with a 'Reference: N/A' link. The main content area is divided into three sections: 'Web Results', 'Filter Results', and a list of search results. The 'Web Results' section shows a search bar and a list of results under the heading 'Jane Sample-Document (2)'. The first result is a 'Personal Web Profile (1)' featuring a photo of Jane Sample-document and a link to her Facebook profile. The second result is a 'Professional Profile & Networking (1)' featuring a photo of Jane Sample-document and a link to her LinkedIn profile. The third result is 'Jane Sample-Document , Yahoo (40)' with a sub-section for 'Yahoo Web (40)' showing a snippet from Heangly's Document on Facebook. The 'Filter Results' section on the right allows users to narrow their search by category and frequency. The categories listed are: City (7), Company (2), IndustryTerm (1), Organization (3), Person (8), and PhoneNumber (3).

With Web Analytics, your CLEAR search dives deep into the Web, finding information that ordinary search engines don't.

Discover how CLEAR has evolved.

We've added the option of accessing even more data and functionality to help you accomplish even more with CLEAR. Now you can choose to:

- Find formerly hidden data and aggregate it
- Add automatic alerts
- Get real-time incarceration records

We believe you'll find that what we've added can become an integral part of what you need from CLEAR. Read on to find out more.

Web Analytics uncovers facts hidden online.

CLEAR's premium Web searches go deep – much deeper than standard search engines – to quickly find, categorize, and organize text and images from numerous sources, including:

- Social networks
- Blogs and chat rooms
- Business and corporate data, including business network sites
- Hundreds of U.S. and international newspapers, magazines, and newswires
- Official watchlists for sex offenders, felons, terrorists, and other individuals and organizations

Web Analytics applies to person, business, and phone searches and gives you the ability to search by screen names and email addresses. It categorizes results for quick, easy comprehension.

The screenshot shows the CLEAR web application interface. At the top, there is a navigation bar with the CLEAR logo and several icons for Search, My Results, My Workspace, Account Tools, My Alerts, and a Logout button. Below the navigation bar, there is a status bar showing '100 Similar Photos Found' and 'Reference: N/A'. The main content area is titled 'Lineup Results' and includes a search bar. Below the search bar, there is a section for viewing larger images, which includes a subject photo and six comparison photos (Photo 1 to Photo 6). Below these photos is a grid of 24 smaller photo thumbnails. A 'View Lineup' button is located at the bottom right of the photo grid. The footer of the page contains copyright information and technical support details.

You can create a 6-pack, 8-pack, or 10-pack photo lineup quickly and easily and export it for printing and saving.

Stay on top of changes with Alerts.

CLEAR allows you to create Alerts when you want to be notified if any key information changes on the person you are investigating.

The Alerts feature will:

- Automatically monitor the status of data you select at time intervals you choose
- Send you alert notices on a periodic basis, from daily up to monthly
- Notify you of an alert via an email or upon your next CLEAR log-in

Real-time incarceration and arrest records with photo lineups.

With this new addition to CLEAR you have access to:

- Near real-time incarceration and arrest records data that includes more than 70 million booking records and over 13 million images
- Data from more than 33 states, making it the most complete network of local jail data available – over 1,900 jails and 17 Department of Corrections files
- Photo lineup capabilities that initiate a lineup from a results page containing an image for the subject, or you can upload your own image to create a lineup
- New booking record searches that allow you to search for currently incarcerated subjects or recent bookings at a specific facility

ADDITIONAL PRODUCT OFFERINGS

Take advantage of CLEAR Batch for large volumes of data.

CLEAR now offers Person and Phone Batch capabilities so you can easily search thousands of records at once.

- Locate current addresses and phone numbers for finding persons of interest, witnesses, or due diligence
- Obtain data such as deceased indicators, utility records, and driver license records for eligibility, warrants, or to enhance internal data records

Batch Alerts.

With Batch Alerts, you can stay on top of changes to address, phone, death, asset, and adverse filings regarding thousands of subjects of interest – all with one simple request.

Batch Alerts:

- Continuously checks for updates to the list of people you submit
- Alerts you of new or changed records associated with subjects of interest
- Notifies you of an alert at time intervals you select

EXPAND YOUR CAPABILITIES

FOR LAW ENFORCEMENT AGENCIES

INVESTIGATE CRIMES

EVALUATE CASES CONTINUALLY

UNDERSTAND THE LAW

E0011

THOMSON REUTERS™

SOLUTIONS FOR LAW ENFORCEMENT AND HOMELAND SECURITY

Proud, safe communities and a just society are benchmarks of our nation. But they don't come easily. Facing ever-increasing demands, public safety and homeland security professionals work tirelessly to provide security to our citizens. As government budgets remain flat or decline each year, it becomes more important to maximize the efficiency of your workforce.

Thomson Reuters offers a suite of solutions to help law enforcement and homeland security professionals do more with less. In less time, and with less effort, our solutions can help you locate people and businesses, understand associations among them, keep up to the minute on information regarding people of interest, and better understand your jurisdiction's law.

INVESTIGATE CRIMES

Without leaving your desk, scour public and proprietary records from around the country; locate subjects, witnesses, persons of interest, and businesses; and identify relationships among them.

EVALUATE CASES CONTINUALLY

Easily locate additional information about subjects, witnesses, or persons of interest; then receive automatic alerts whenever there's a change of information in the records of persons you've asked us to track.

UNDERSTAND THE LAW

Easily find relevant statutes, cases, and expert analysis that will help you feel confident you are properly applying the law when analyzing alleged criminal activities or planning and executing your department's activities.

INVESTIGATE CRIMES

You may start an investigation with a kernel of information and want to know everything you can about a subject of interest. We understand this process and have amassed the most comprehensive grouping of public and proprietary records available in an easy-to-use online interface ready to help you solve a crime, find a witness or uncover hidden assets. If you already have an established and defined online workflow, CLEAR® System-to-System enables you to integrate our CLEAR data right into your current system interface.

CLEAR

Close cases faster. CLEAR offers powerful public and proprietary records with tools for fast and immediately usable results. Over 2,500 federal, state, and local agencies rely on CLEAR. Work more efficiently and effectively to:

- Locate people, assets, businesses, affiliations, and other crucial facts
- Make connections among individuals, incidents, activities, and locations
- Visualize, detect, and analyze patterns and trends in offenses and offenders

CLEAR saves you time, pulling together disparate data sets from public record sources along with unique access to:

- Deep Web data
- Work affiliations
- Criminal records
- Utility records
- Phone records
- And many other data sets

continued

E0013

Once you find your subject – you can then analyze the results within My Workspace.

The CLEAR Alerting feature allows you to set an alert and be notified when key information changes on your subject.

CLEAR SYSTEM-TO-SYSTEM

CLEAR System-to-System grants access to Thomson Reuters' premier public records data, seamlessly, from within your current desktop workflow. If your organization has established and defined workflows, CLEAR System-to-System can provide access to our data, from within your current platform.

CLEAR: A one-stop source for investigating people and companies

- 1 You can start your search with any information you have available, such as a name or SSN – even with partial information.
- 2 Access key data sources, such as Web Analytics and Real-Time Incarceration & Arrest Records, with a simple click.
- 3 After entering your search criteria, simply press **Enter** or select **Run Search**.

For more information, visit clear.thomsonreuters.com

"I received a call that two inmates escaped from a local prison. With the information we had on the inmates I was able to search within CLEAR to find known associates. Within hours of searching relatives' homes, we were able to find the inmates hiding out and return them to prison."

"The missing child was found and subsequently reunited with her family. The address information found in CLEAR was directly responsible for rescuing this child and most likely saved her life."

EVALUATE CASES CONTINUALLY

When you have many cases to juggle, it's tough to stay current on outstanding warrants or the day-to-day activities of investigation subjects. That's why we created products such as CLEAR Batch and Batch Alerting: easy-to-use tools that keep you on top of the moving pieces.

CLEAR BATCH

Batch functionality saves law enforcement time, freeing your workforce to focus on other priorities.

CLEAR Batch lets you upload thousands of files, to gain more information on subjects, witnesses, or persons of interest. For warrants or to enhance internal records, easily obtain data such as deceased indicators, incarceration records, utility records, and driver's license records.

"Our agency has uploaded our large list of outstanding warrants and receives notices when something changes. To date we have found 5% of our outstanding list, thanks to batch alerting."

BATCH ALERTING

Batch Alerting lets your organization upload large amounts of subject information and run automatic public record searches, alerting you whenever key data changes. And you can choose the frequency that the data reruns, from daily to monthly.

E0015

UNDERSTAND THE LAW

When law enforcement professionals need to be confident in their understanding of legal matters, they turn to Thomson Reuters. Thomson Reuters offers a variety of legal information and tools for effective, efficient law enforcement at the federal, state and local levels.

WESTLAW NEXT

Access hundreds of databases with current information tailored to your legal questions and needs. Content includes:

PRINT RESOURCES

Law enforcement agencies across the country count on Thomson Reuters books for up-to-date, expert analysis of the law and practical guidance on enforcement and court procedures. Below are some of the most frequently consulted titles.

Criminal law

- *The Field Guide to Law Enforcement*, by Lloyd J. Weinreb and James D. Whaley – Ensure successful prosecution by knowing and applying the current legal standards
- *Criminal Procedure, 3d*, by Wayne R. LaFave, Jerrold H. Israel, et al. – An in-depth guide to every stage of a criminal case from investigation through postconviction
- *Federal Criminal Code and Rules** – A quick reference to the full text of Title 18 of the U.S. Code and relevant court rules
- State-specific criminal law* – Compact, low-cost codes and court rules for squad cars and desktops

Search and seizure

- *LaFave's Search and Seizure, 4th*, by Wayne R. LaFave – The foremost authority on the Fourth Amendment showing how to apply the law to various situations
- *Search and Seizure Checklists** – Simplifying searches of homes and vehicles, arrests, surveillance and other law enforcement essentials
- *Search Warrant Law Deskbook*, by John M. Burkoff – Essential information to execute a search warrant legally
- *Vehicle Search Law Deskbook**, by Christian Fisanick – Detailed coverage of vehicle stops, searches, and seizures
- *Warrantless Search Deskbook** – Legal principles for correct traffic and sobriety roadblocks and the evidence obtained

Wiretapping and electronic surveillance

- *Wiretapping and Eavesdropping, 3d*, by Clifford S. Fishman and Anna T. McKenna – Tactics and forms to obtain and execute eavesdropping warrants
- *The Law of Electronic Surveillance*, by James G. Carr and Patricia L. Bellia – Procedures to execute an electronic search and use the information collected

Motor vehicle law

- *DUI Law Enforcement Strategies: Law Enforcement Officials on Administering Field Sobriety Tests, Interpreting Results, and Preparing for Court Testimony*, by Michael L. Asleson et al. – Procedures for identifying a drunk-driving offense
- State-specific motor vehicle and DWI law* – Codes and court rules

Rights of the accused

- *Criminal Procedure Checklists, Fifth and Sixth Amendments** – Quick access to the law governing Miranda warnings, self-incrimination, right to counsel, and other matters
- *Habeas Corpus Checklists**, by Ira P. Robbins – A ready reference to doctrines, theories, approaches, statutes, rules, and cases

Sentencing

- *Federal Sentencing Guidelines Handbook**, by Roger W. Haines, Frank O. Bowman III, and Jennifer C. Woll – Clear instructions to compute a sentence accurately

QUINLAN NEWSLETTERS

Quinlan™ newsletters and special reports help law enforcement officers, investigators, and department administrators stay current on the latest developments and hot topics impacting them.

Monthly newsletters

- *Search and Seizure Bulletin* – Tips on the seizure of incriminating evidence
- *Arrest Law Bulletin* – Up-to-date information on the laws governing evidence searches and arrests
- *Investigative Stops Law Bulletin* – Best practices for difficult and sometimes dangerous stops
- *Computer Crimes and Technology in Law Enforcement* – Guidance to prevent, investigate, and prosecute identity theft, child pornography, and other computer-related offenses
- *Law Enforcement Employment Bulletin* – How to manage personnel and keep your agency in step with the law
- *Narcotics Law Bulletin* – Timely examination of critical court decisions involving narcotics
- *National Bulletin on Domestic Violence Prevention* – Updates on court decisions, research results, resources, and other news
- *Police Department Disciplinary Bulletin* – Analysis of federal and state cases on disciplinary practices, case summaries, and news

Thomson Reuters provides an array of information, tools, and services to help Law Enforcement Agencies serve the public more efficiently and cost-effectively, offering citizens a safer community, and a more just and efficient legal system.

E0018
THOMSON REUTERS™

Background

Preventing or reducing damage and loss from “bad actors,” whether they are trusted employees, external adversaries, or disruptive events, is of critical importance to Government and Commercial organizations. Identifying early threat indicators is essential for the Intelligence Community and Law Enforcement to reduce their risks and exposure. Historically, the volume of data, rate of change, and limited resources have made it nearly impossible to effectively detect and mitigate threats in real time. This trend towards deriving actionable intelligence from the world of big, real-time data can now be simplified using advancements in commercial data processing and technology. By leveraging Thomson Reuters Special Services’ (TRSS) access to proprietary data sets combined with cutting edge analytics, we increase accuracy, reduce risk, and lower cost and resource expenditures.

Company Information

Thomson Reuters is the world’s leading source of intelligent information for businesses and professionals. Thomson Reuters’ offerings combine industry content and expertise with innovative technology to deliver critical decision making information to business leaders around the world. Thomson Reuters’ products and services are integral to major global industries including: financial, legal, scientific, healthcare, and media.

Established in 2008, Thomson Reuters Special Services, LLC (TRSS) is a wholly-owned subsidiary of TR and is U.S. based and independently operated. TRSS delivers a comprehensive suite of solutions designed to help professionals achieve mission objectives, address uncertainty, and identify and manage risk. TRSS leverages Thomson Reuters’ market-leading solutions to help our clients perform intelligence collection/analysis, cybersecurity, counter threat finance, insider threat, and risk management.

Threat Intelligence Portfolio Introduction

THE TRSS SOLUTION

TRSS delivers a comprehensive portfolio of Threat Intelligence Solutions that help our clients with strategic initiatives focused on Threat Analysis.

Taking advantage of Thomson Reuters’ expertise in automated data processing and machine learning models for real time analysis, TRSS has developed solutions to support intelligence and law enforcement missions. These solutions streamline the process of detecting harmful threats around events, facilities and individuals.

Service Highlights and Data Analytics

TRSS Threat Intelligence Solutions go beyond simple collection of social media and open source data. TRSS has created a novel approach to the filtering and prioritizing of data presented for analysis. TRSS uses statistical modeling and machine learning techniques to model specific behavioral and contextual concepts to score dynamic text, from sources like social media, to filter and rank data for the analysts in a way that helps analysts prioritize the most important information related to the modeled concepts.

Threat Analysis

Through an automated, continuous process, the Threat Analysis service has been built to collect massive amounts of social media and open source data in real-time to collect results matching the query terms. Once the data has been collected, the system will evaluate and score the data for potential threats. Features include:

- Targeted real-time data collection for geo-location, keywords, phrases, and entities
- Data evaluation and threat scoring
- Heat map display of results based on geo-code data and threat score
- Topic discovery
- Collection of user metadata

The process for producing a threat score is to inspect the text based on linguistic features corresponding to psychological and sociological behaviors associated with making and carrying out threats.

In addition to the threat scoring model, sentiment analysis is performed on several languages. Sentiment analysis delivers a measure of the positive or negative sentiment in a post.

Data Delivery Capabilities

TRSS Threat Intelligence Solutions can be delivered to clients through a number of different platforms dependent upon client capabilities and requirements.

Standard deliverables include raw data, direct data feeds, and/or finished intelligence reports provided by trained TRSS analysts. Deliverables can be customized to meet client requirements and complement current programs.

Customization

Based on client needs, custom scoring models can be generated.

Create a virtual perimeter in seconds and monitor activity across seven social networks, in real time.

An invaluable tool for public safety monitoring and surveillance

We help crime analysts, detectives, and task force operations improve response through real-time, location-based situational awareness. Social media has become an invaluable tactical tool to support a wide variety of missions, and every observer is now a potential eyewitness and source of on-location images and information.

Turn information into actionable intelligence

See what's happening in real time and search historical data in critical locations to find witnesses and leads, establish timelines, and identify suspects.

The cornerstone of a real-time crime center operation

Assess, prevent, and react to threats by aligning location-based social media monitoring and analysis with other intelligence sources.

Seamless information sharing between analysts and ground ops

Leverage real-time, hyper-local social media monitoring and analytics to assess crisis areas and quickly coordinate responses anywhere in the world.

Enhance event and venue security efforts

Hyper-local search allows specific venues, down to the building, to be monitored for potential security threats, greatly reducing response times.

KEY FEATURES

- REAL-TIME MONITORING
- RECORDING AND ARCHIVAL OF DATA
- AUTOMATIC EMAIL ALERTS
- ROBUST ANALYTICS AND REPORTING
- SUSPECT TRACKING
- RELATIONSHIP DIAGRAMS

Hi [REDACTED]

Thanks again for chatting and your honest feedback this morning. I've attached a one sheeter and some use cases for you to pass up to Commander Ennis. I'd be happy to run another demo for him, or if you want to show him the software yourself I'll happily extend your trial.

Thanks again for your help!

Have a great weekend,

Geofeedia's location-based social media intelligence platform is utilized by agencies all over the world, all with unique use cases and objectives. To help you understand the successes these agencies are experiencing while using Geofeedia, we've collected these real testimonials and stories from a variety of our customers.

"More than 50% of the time, Geofeedia has given the sheriff's department leads from 'audio witnesses' about the case that would never have been discovered without the platform."

Los Angeles County Sheriff's Department

"It is a very handy tool. Very user friendly. I was able to track down photos of individuals involved in some very serious crimes that I would never be able to do had it not been for Geofeedia. Two of those crimes were for a sexual assault and the other was an individual who was involved in shooting at an officer."

IVLECC HIDTA

Using Geofeedia, Yaeger Airport (WV) Security identified two Asian nationals taking hundreds of photos of TSA security. Security was able to detain and question the two individuals before harmful action took place.

LAPD was using Geofeedia to monitor the LA Dodgers playoff series against the St. Louis Cardinals. In the parking lot, they identified a threatening post of an individual holding an AR-15. Within 5 minutes, LAPD sent SWAT and was able to detain the suspect for further questioning.

North Florida HIDTA closed three narcotics/drug trafficking cases in the first month of Geofeedia access. They also used the tool for a U.S. Coast Guard stolen property case and consequently found intel on a major ongoing drug trafficking case.

When a 14 year old female committed suicide, Polk County Sheriff's Office used Geofeedia to find the two other individuals who were responsible for cyber bullying.

The Virginia Beach Police Department used Geofeedia while working on an armed robbery case and identified graffiti posts which resulted in the arrest of the original suspect.

The Tempe Police Department used Geofeedia in a case involving a teen threatening to "shoot up" his school. They also used Geofeedia during "Operation Safe & Sober."

When an individual made threatening comments on social media about killing his boss, the Corona Police Department used Geofeedia to identify the location of the individual and were able to detain and question him before anything happened.

An officer in Sacramento obtained information from Geofeedia involving a subject selling heroin and other controlled substances. A search warrant was signed and served, at which time powder cocaine, heroin, and various other controlled substances were located, along with text messages and photographs that were indicative of sales. The suspect was arrested.

During the recent West Virginia chemical spill, the West Virginia Intelligence Fusion Center gathered thousands of misleading posts and tweets. Very rapidly, the fusion center and National Guard reached out to these individuals to provide them with true information about consuming water at the time.

A follow-up search of the cell phone yielded information about a FedEx package containing heroin being overnighted to the residence, along with text messages from a dealer. Search warrants were served for both of these locations as well.

In Sacramento, an officer came across a post of a kid with a gun. The info was given to SWAT, a probation search was conducted, and they found the gun and made the arrest.

Not rendering correctly? [View this email as a web page here.](#)

Receive alerts when important posts are made from within your Geofeeds

If you have the recording feature activated on your account, you can receive real-time email alerts when posts are made from within your recorded Geofeeds. Each alert can be triggered by up to 50 keywords and/or usernames and applied to multiple Geofeeds. Here's how to set them up (screenshot below):

1. While viewing an active recorded Geofeed, click the alerts icon in the main toolbar
2. Give your alert a name
3. Enter up to 50 keywords and/or usernames, comma delimited
4. Apply the alert to one or multiple active recordings
5. Select the members of your account who should receive the alerts
6. Click Save

That's it! When posts are made that match your criteria, an email will be sent with the details and a link to view the item in Geofeedia. If you don't have the recording feature activated in your account but would like to be able to archive content from your feeds and use alerts, get in touch with our support team at support@geofeedia.com.

Social Media Investigations: Gun Recovery Unit Edition

Detective Sergeant [redacted] JTTF

E1319

Attention Gun Recovery Unit!!!

I am teaching this class as a supplemental to your current knowledge base of social media. It was designed using best practices acquired over my time doing social media investigations. Things we are going to cover today:

- Personal Use of the Social Media
- Legal Process Pitfalls (and how to avoid them)
- Online Covert Accounts

E1320

Understanding the Anti-Customer (everything is going to be OK, guys)

E1321

Personal Use of Social Media

We are getting crushed by Internal Affairs and Citizen Complaints on how we conduct ourselves in our personal lives. Understand that every conversation you make could be screen captured and taken out of context.

E1322

Personal Use of Social Media

There is no such thing as a secret group on social media. Be cognizant that anything you say even in jest can be taken out of context and exploited.

E1323

Personal Use of Social Media

Path of least resistance: Do not use social media while on duty.

E1324

Personal Use of Social Media

Understand as a member of the Metropolitan Police Department, any comments you make reflect on the Department. Context and humor are subjective.

E1325

Personal Use of Social Media

This includes blogs and media outlets.

BLOOMINGDALE, CRIME, TRUXTON CIRCLE

“After the suspect refused to follow numerous commands, two officers discharged their firearms”

E1330

Legal Process for Social Media

E1331

Legal Process and Getting What you Want

- There are three types of legal process that an Investigator will find themselves issuing in an investigation. Those are:
 - 1) Preservation Letters
 - 2) Search Warrants
 - 3) Emergency Disclosures

E1332

Legal Process and Getting What you Want

Preservation Requests

[↑ 18 U.S.C. §2703\(f\)\(1\)](#) states: “A provider of wire or electronic communication service or a remote computing service, upon the request of a governmental entity, shall take all necessary steps to preserve records and other evidence in its possession pending the issuance of a court order or other process.”

- Good for at least 90 days
- Retroactive
- Customer not notified

Search Warrants

E1338

Legal Process and Getting What you Want

At this point in your career, I am not going to walk you through the warrant process. What I can do is highlight recurring issues with social media search warrants. I have made all of these mistakes myself.

E1339

MPD 21

Social Media Investigations: Gun Recovery Unit Edition Presentation

Legal Process and Getting What you Want

1) Training and Experience

If you are using the phrase “training and experience,” you need to be able to articulate what training and experience you have beyond the Maurice J Turner Institute of Police Science.

Places to get Training

- Private Sector offerings
- Community College
- Government-affiliated offerings (NCTC, HIDTA)

If you want the training, hunt for it. If the Department won't grant you Admin Leave, take personal leave. INVEST IN YOURSELF.

E1340

Legal Process and Getting What you Want

1) Training and Experience

If you are using the phrase “training and experience,” you need to be able to articulate what training and experience you have beyond the Maurice J Turner Institute of Police Science.

Articulating Experience

We all have life experience. In addition to on-the-job experience, your personal life plays a role in justifying that your training and experience

E1341

MPD 23

Social Media Investigations: Gun Recovery Unit Edition Presentation

Legal Process and Getting What you Want

2) “I know statements”

How do you know? Is it just template language or do you actually know?

One of the reasons I create social media accounts for familiarization is to understand how communication works. I know people communicate through direct messages because I have my own account. I know the data that is collected because I read the User Agreement when I created the account.

E1342

Legal Process and Getting What you Want

3) Language is important

If slang is used to describe a firearm, be prepared to discuss how you know a _____ is a firearm or _____ is a shooting. Visuals and criminal records help.

TOP DEFINITION 🐦 f >

E1343

Legal Process and Getting What you Want

4) High Crime Area

The Gun Recovery Unit is not the low crime response unit. If you are in area, there is probably a reason. Instead of exclusively using high crime area, articulate how you happened upon an investigation or a subject. Things that help:

- CRS Analytical Products
- Heat Maps
- Deployment Orders and historical knowledge

E1344

Legal Process and Getting What you Want

5) The social media platform rejected my warrant

E1345

Legal Process and Getting What you Want

5) The social media platform rejected my warrant

Most Common reason: wrong address/company allocation

Legal Process and Getting What you Want

Emergency Disclosures

18 U.S. Code § 2702 - Voluntary disclosure of customer communications or records

A social media platform can provide you subscriber level information on an account if you can articulate (in good faith), that an emergency involving danger of death or serious physical injury to any person requires disclosure without delay of communications relating to the emergency.

E1348

Legal Process and Getting What you Want

Emergency Disclosures

These should not be used in lieu of legal process. It's a handshake agreement with a company to mitigate a threat, with the expectation that legal process will be forthcoming(if applicable).

E1349

Legal Process and Getting What you Want

Emergency Disclosures

The two requirements needed for most companies are:

- A demonstration that there is a threat
- A demonstration that the threat is imminent (not eminent)

E1350

Use of Undercover Accounts

- Why create an Online Covert Account (Undercover account)?

E1419

Use of Undercover Accounts

Social Media has become a language of its own over the last two decades. As a form of communication, it is critical to successful Investigations. Things to consider:

- Undercover Accounts typically violate the User Agreement from social media platforms
- Intellectual Property is a thing
- Documentation is the fine line between focused investigations and targeted harassment.

E1420

Use of Undercover Accounts

There are two variations of an OCA, and they should be kept exclusive of each other. Overt accounts are used to monitor opensource social media, and Covert accounts are used for focused contact on predicated individuals.

E1421

Use of Undercover Accounts

Overt Accounts

- An Overt Account monitors social media that is otherwise publicly viewable. The three platforms this is most often seen in are:
 - Facebook
 - Instagram
 - Twitter

E1422

Use of Undercover Accounts

Covert Accounts

- A Covert Account is used for focused investigations. We gain information on bumping (contacting) subjects through a starting point(we need to have a reason). These starting points could include:
- IQ Reports
- Tips from Citizens
- Tips from Officers
- Social Media Aggregators
- Hashtags or Names from your experiences as a law enforcement Officer
- Gang Books and MPD Databases

E1423

MPD 112

Use of Undercover Accounts

Building Your Accounts:

With overt Accounts, no contact should be made with subjects. These are simply made to view opensource platforms. Every search or viewing merits documentation.

E1431

Use of Undercover Accounts

Building Your Accounts:

With covert Accounts, the end goal is an arrest. This may be done through an operation that introduces an Undercover or a Confidential Informant, or in the case of threats by way of a search warrant for the account.
