21-F100173 **REVISED: DECEMBER 2021**

**DONATION AGREEMENT  
BETWEEN THE  
METROPOLITAN POLICE DEPARTMENT DISTRICT OF COLUMBIA  
AND  
VOYAGER ANALYTICS, INC.**

1. **Voyager Analytics, Inc.** Agrees to make an in-kind donation to the **Metropolitan Police Department** valued at \$15,000.00 to be used for the following purpose. The donation is being given freely without any expectation of special treatment by the government.

2. The donation of a trial license to Voyager's Social Media Intelligence & Investigation software. This software would allow for non-attributable collection and analysis of publicly-available social media data. The donation is for an authorized purpose because it is consistent with the functions and purposes of the agency.

3. The donation is being made on the condition that the agency agrees to use the donation for the particular purpose stated in this agreement in accordance with the terms set forth in the applicable EULA. [not applicable]

<input type="checkbox"/>	Yes, with my consent all remaining funds may be applied toward another D.C. Government program with a similar purpose in this fiscal year or subsequent years.
<input type="checkbox"/>	No, please refund all remaining funds to the donor.
<input checked="" type="checkbox"/>	Not Applicable

*Please check the appropriate box.*

4. The donor has read and agrees to be bound by the Rules of Conduct regarding Donations set forth in Mayor's Memorandum 2002-1, dated January 8, 2002.

5. To the best of the Donor's knowledge, the donor is not aware of any transactions pending before any agency or the District government involving the Donor, nor any litigation pending against the government involving the Donor.

6. The District of Columbia government acknowledges that systems are in place for the donation to be accepted by the government and the use of the donation may be properly tracked as required by the Section 115 of the District of Columbia Appropriations Act, 2003, Pub. L.108-7.

**Signature of the Parties:**

Designated by:  Date: 3/1/2017

Name: Eugene Grulevich

Title: EVP Sales & Operations, North America

 Date: JUN 06 2017

Agency Representative: Chief Peter Newsham

Agency name: Metropolitan Police Department

 Date: 6/6/17

Director of OPGS

on behalf of the District of Columbia Government

**NOTE:**

- **Additional paragraphs may be inserted and renumbered accordingly**
- **Insert amount of the donation whether in-kind or financial**
- **State purpose of the donation**
- **All checks must be made payable to the DC Treasurer and handle by OPGS**

### MEMORANDUM

TO: Chief Operating Officer

THRU: Assistant Chief of Police  
Homeland Security Bureau

THRU: Commander  
Technical Services Division

FROM: Director  
Joint Strategic and Tactical Analysis Command Center

DATE: December 22, 2016

SUBJECT: Social Media Analysis Tool (Voyager Analytics) Test Request

1. The Criminal Research Specialists (CRS) assigned to the Investigative Support Unit (ISU) and MPD personnel assigned to the Criminal Intelligence Branch (CIB) currently have no automated method of searching social media for relevant information to persons that are subjects of MPD criminal investigations, nor do they have a method of conducting that search from non-attributable platforms; furthermore, all “network analysis” conducted by the CRS or CIB are done manually, resulting in an very-labor intensive process that does not have the capabilities of relying on automated, big-data analytics.
2. Voyager Analytics Social Media Collection and Analysis Software offers an automated solution to this problem along with integrated analytics to conduct network analysis and provide in-depth information from over six social media platforms from non-attributable proxy servers. This is primarily an investigative tool that can directly support the missions of the CRS, CIB and MPD personnel assigned to the JTTF. This is not an alerting or aggregation tool (such as Datamir or Sprinklr) and has distinctly different capabilities. Additionally, Voyager offers its “Genesis” tool that “efficiently reads and parses PDF files received from social media platform providers in response to a search warrant or subpoena” which then allows the results to be analyzed quickly and efficiently using Voyager’s proprietary analytic suite, significantly simplifying the investigative process and reducing the manpower burden following receipt of massive amounts of data received in response to these court orders.
3. Voyager Analytics is a web-based tool that requires no software installation on MPD systems, nor any access to MPD data. Furthermore, as it only collects data in the public domain from proxy servers, it does not depend on social media

- providers such as Twitter, etc., granting access to their data, and thus is not subject to having its services available at the whim of the social media providers.
4. Voyager has been previously tested by the Intelligence Division and found to exceed the capabilities of all other social media investigative tools they had tried. However, prior to recommending departmental purchase, due to the similarity of mission, a second trial is requested to see if this tool will also benefit the CRS personnel assigned to the ISU and CIC. Voyager Analytics has offered MPD a two-week trial period during the period of the Presidential Inauguration to see if the tool will meet our needs. Additionally, CIB has not had the opportunity to try the Genesis tool, which will also be offered for trial during this period. This test period will also help determine the appropriate number of licenses and necessary data packages should it meet MPD's needs and a purchase decision is made.
  5. If approved for a trial period with MPD, its usage will be covered by existing social media policies or the previously submitted draft social media policy and will be reviewed by the MPD privacy officer prior to beginning the test.
  6. If approved for test, a "donation agreement" will be completed separately with Voyager covering the proposed trial period from 9-23 January 2017.
  7. Expected performance outcomes and measures for the test period are:
    - a. Expected Outcomes:
      - i. Validation of the Voyager tool as an effective investigation tool for Intelligence and CRS personnel.
      - ii. Validation of Voyager's Genesis tool as an effective means of sorting and analyzing social media search warrant/court order returns
    - b. Performance Measures:
      - i. Voyager provides investigative leads in 75% of the use cases attempted that would have been previously unavailable with existing MPD systems and software tools.
      - ii. Genesis reduces the time necessary to process social media returns from a court order by an average of 50% over existing processes.
  8. I strongly recommend approval of this free trial and I am happy to facilitate a meeting with Voyager Analytics personnel if additional information is desired.

Respectfully,

LEE T. WIGHT, Director, Joint  
Strategic and Tactical Analysis  
Command Center
