Subject: Re: IMPORTANT DATED MATERIAL for Predictive Policing Pilot Demonstration Project
Attachment(s): "2016_02_15_Azavea_Security Control Certification.pdf"

Claudia,

Azavea's signed security control certification is attached for your records. We are also placing the original in the mail to your attention. In addition, we have some questions that we hope you can answer for us regarding the requirements document you provided. We want to be sure that everything proceeds to your expectations. Please see our questions below:

1. We are just confirming that the incoming data will contain a unique record identifier so that we can ensure that records are not counted twice if updates to records result in the record appearing in multiple day's upload files. Will that be the case?
2. The directions state that our predictions must be received by 0600. By what time will crime data files be uploaded to our FTP server?
3. By default, our mission cells are presented in GeoJSON format within our application. Is this format acceptable for our submission to NYPD, or do you prefer another format?
4. By what mechanisms can we deliver the missions to NYPD?
5. We have created credentials for our FTP server. How do you prefer that we relay the password to you?

Thank you again for the opportunity. We look forward to hearing from you with responses to the above questions.

Sincerely,

Mary

Claudia,

Thank you for sending these materials. We have received and are currently reviewing the requirements document. We will respond with an e-mail and hardcopy of the security control certification document in advance of the February 17 deadline.

Sincerely,

Mary

Claudia,

The original was sent to your attention by regular mail on Monday, but was perhaps delayed by the Monday holiday. I can resend via overnight delivery, if that would help. Are you able to answer the questions we submitted with this e-mail, or must you wait until you receive the original to do so?

Sincerely,

Mary
