[Thomas]: "I put myself through college and law school working on the assembly lines of Ford and Chrysler. There I learned the

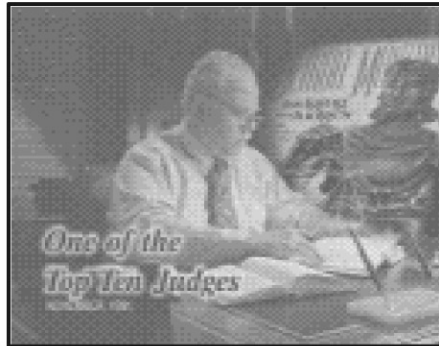

values of real work. As a prosecutor, I always tried to

put the victims first, helping them through the legal process, and fighting

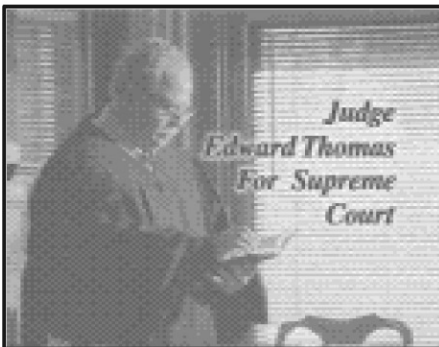

for their rights. And as a judge, I have presided over 1200 cases,

learning that sometimes the big special interests aren't always right.

The people matter most."  
 [Announcer]: Judge Edward Thomas for Supreme

Court. It's time to put the people first.
