590. REPORTING *SUSPICIOUS ACTIVITY* POTENTIALLY RELATED TO FOREIGN OR DOMESTIC TERRORISM. It is the policy of the Los Angeles Police Department to make every effort to accurately and appropriately gather, record and analyze information of a criminal or non-criminal nature that could indicate activities or intentions related to either foreign or domestic terrorism. These efforts shall be carried out in a manner that protects the information, privacy and legal rights of Americans, and therefore, such information shall be recorded and maintained in strict compliance with existing federal, state and Department guidelines regarding Criminal Intelligence Systems [28 Code of Federal Regulations (CFR), Part 23 and applicable California State Guidelines].

DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. , 2012

271.46 REPORTING SUSPICIOUS ACTIVITY POTENTIALLY RELATED TO FOREIGN OR DOMESTIC TERRORISM.

DEFINITIONS.

***Suspicious Activity.** Suspicious Activity is defined as observed behavior reasonably indicative of pre-operational planning related to terrorism or other criminal activity.*

***Terrorism.** Terrorism is defined as the unlawful use of force and violence against persons or property to intimidate or coerce a government, the civilian population, or any segment thereof, in furtherance of political or social objectives. This is consistent with the Code of Federal Regulations (28 C.F.R. Section 0.85). This definition includes individuals and groups who plan, threaten, finance, aid/abet, and attempt or perform unlawful acts in furtherance of terrorist activity.*

Suspicious Activity Report. A Suspicious Activity Report (SAR), Form 03.24.00, is an official documentation of observed behavior reasonably indicative of pre-operational planning related to terrorism or other criminal activity. The SAR is a stand-alone report. The information reported in a SAR may result from observations or investigations by police officers, or may be reported to them by private sources.

These terrorism-related behaviors may indicate intelligence gathering or pre-operational planning related to terrorist activities or other criminal activity. These activities and behaviors include:

Criminal Activity and Potential Terrorism Nexus Activity.

- **Breach/Attempted Intrusion.** Unauthorized individuals attempting to or actually entering a facility/infrastructure or protected site;
- **Misrepresentation.** Presenting false or misusing insignia, documents, and/or identification to misrepresent one's affiliation to cover possible illicit activity. Impersonation of any authorized personnel (e.g., police, security, or janitor);
- **Theft/Loss/Diversions.** Stealing or diverting (obtaining or acquiring) something associated with a facility/infrastructure [e.g., badges, uniforms, identification, emergency vehicles, technology or documents (classified or unclassified), which are proprietary to the facility];
- **Sabotage/Tampering/Vandalism.** Damaging, manipulating, or defacing part of a facility/infrastructure or protected site;
- **Cyber Attack.** Compromising or attempting to compromise or disrupt an organization's information technology infrastructure;
- **Expressed or Implied Threat.** Communicating a spoken or written threat to damage or compromise a facility/infrastructure, protected site, and cyber-attacks; *or*,
- **Aviation Activity.** Operation or attempted operation of an aircraft in a manner that reasonably may be interpreted as suspicious or posing a threat to people, buildings/facilities, infrastructures, or protected sites. Such operation may or may not be a violation of Federal Aviation Administration regulations.

Revised by Special Order No. , 2012

Potential Criminal or Non-Criminal Activity Requiring Additional Fact Information During an Investigation.

- **Eliciting Information.** Questioning individuals at a level beyond mere curiosity about particular facets of a facility's or building's purpose, operations, security procedures, etc., that would arouse suspicion in a reasonable person;
- **Testing or Probing of Security.** Deliberate interactions with, or challenges to, installations, personnel, or systems that reveal physical, personnel or cyber security capabilities;
- **Recruiting.** Building of operations teams and contacts, personal data, banking data or travel data;
- **Photography.** Taking pictures or videos of facilities/buildings, infrastructures, or protected sites in a manner that would arouse suspicion in a reasonable person. Examples include taking pictures or videos of ingress/egress, delivery locations, personnel performing security functions (e.g., patrol, badge/vehicle checking), security-related equipment (e.g., perimeter fencing, security cameras), etc.;
- **Observation/Surveillance.** Demonstrating unusual interest in facilities/buildings, infrastructures or protected sites beyond mere casual or professional (e.g., engineers) interest, such that a reasonable person would consider the activity suspicious. Examples include observations through binoculars, taking notes, attempting to measure distances, etc.;
- **Materials Acquisition/Storage.** Acquisition and/or storage of unusual quantities of materials such as cell phones, pagers, fuel, chemicals, toxic materials, and timers, such that a reasonable person would consider the activity suspicious;
- **Acquisition of Expertise.** Attempts to obtain or conduct training in security concepts, military weapons or tactics, or other unusual capabilities such that a reasonable person could consider the activity suspicious;
- **Weapons Discovery.** Discovery of unusual amounts of weapons, explosives, or their components that would arouse suspicion in a reasonable person; or,
- **Sector-Specific Incident.** Actions associated with a characteristic of unique concern to specific sectors (such as the public health sector) with regard to their personnel, facilities, systems or functions.

Note: These activities *are generally protected by the First Amendment to the United States Constitution* and should not be reported in a SAR, absent articulable facts and circumstances that support suspicion that the behavior observed is not innocent, but rather reasonably indicative of *criminal activity associated with terrorism, including evidence of pre-operational planning related to terrorism*. Race, *ethnicity*, national origin, or *religious affiliation* should not be considered as factors that create suspicion (although these factors may be used as specific-involved person descriptors).

Involved Person (IP). An involved person (IP) is an individual *who* has been observed engaging in suspicious activity, when no definitive criminal activity is identified, thus precluding their identification as a suspect.

DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. , 2012

Potential Target. A potential target is a person, facility/building, infrastructure or protected site that is or may be the object of the suspicious activity.

REPORTING AND INVESTIGATIVE RESPONSIBILITIES FOR SAR-RELATED INCIDENTS AND CRIME AND/OR ARREST REPORTS. All reports of suspicious activity is to be reported on a SAR. The Division of Records (DR) number for all associated reports (e.g., Property Report, Form 10.01.00; Investigative Report (IR), Form 03.01.00; and Arrest Report, Form 05.02.00) is to be listed in the space provided on the upper left-hand corner of the SAR face sheet.

Employee's Responsibilities. Any Department employee receiving any information regarding suspicious activity and/or observing any suspicious activity is to investigate and take appropriate action, *including* any tactical response or notifications to specialized entities.

Note: This section does not preclude, in any way, an employee taking immediate action during the commission of a criminal act, or in circumstances which require the immediate defense of life, regardless of the nature of origin.

Activities that are generally protected by the First Amendment should not be reported as a SAR, unless additional facts and circumstances can be clearly articulated that support an officer's or agency's determination that the behavior observed is reasonably indicative of criminal activity associated with terrorism or other criminal activity.

Officers are reminded of constitutional and case law as they pertain to search and seizure, and to stop and frisk. Officers, who have neither reasonable suspicion to detain nor probable cause to arrest, cannot legally prevent an individual from walking away.

Consensual Encounter. *A consensual encounter is an encounter between a police officer and an individual in which the individual voluntarily agrees to stop and speak with the officer. The individual is free to leave at any time during a consensual encounter unless there is reasonable suspicion to detain or probable cause to arrest.*

Lawful Detention. *A lawful detention must be based on reasonable suspicion that criminal activity has taken place or is about to take place, and that the person detained is connected to that activity.*

Arrest. *Probable cause to arrest is a set of facts that would cause a person of ordinary care and prudence to entertain an honest and strong suspicion that the person to be arrested is guilty of a crime.*
