

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK

-----x

CONSERVATIVE PARTY OF NEW  
YORK STATE and WORKING FAMILIES  
PARTY,

10 Civ. 6923 (JSR)

Plaintiffs,

**DECLARATION OF  
ERIC HECKER, ESQ.**

-against-

NEW YORK STATE BOARD OF ELECTIONS;  
JAMES A. WALSH, DOUGLAS A. KELLNER,  
EVELYN J. AQUILA, and GREGORY P.  
PETERSON, in their official capacities as  
Commissioners of the New York State Board of  
Elections; TODD D. VALENTINE and  
ROBERT A. BREHM, in their official capacities  
as Co-Executive Directors of the New York State  
Board of Elections

Defendants.

-----x

ERIC HECKER, ESQ., an attorney duly admitted to practice before this  
Court and the courts of this State, declares under penalty of perjury pursuant to 28 U.S.C.  
§ 1746 that the following is true and correct:

1. I am a partner at Emery Celli Brinckerhoff & Abady LLP, counsel  
for Plaintiff Conservative Party of New York State. I hereby submit this Declaration in  
support of Plaintiffs' motion for a preliminary injunction.

2. Although it would be impossible to predict with any degree of  
certainty how many double votes will be cast in the upcoming election, official data  
regarding the number of over votes (votes for more than one candidate for a single office)  
that were cast on paper ballots in New York City in the 2008 election suggests that there

will be, at the least, tens of thousands of double votes cast across New York State in the upcoming election.

3. Attached hereto as Exhibit A is a true and correct copy of a report that was compiled by the New York City Board of Elections detailing the results of votes that were cast on paper ballots in New York City in the 2008 general election.

4. The first five pages of this report detail the results from Queens County (although one page, the fifth page out of six, is missing). The following pages detail the results from Bronx, Kings, Manhattan, and Richmond Counties, respectively.

5. This report breaks down all of the data by race. For each county, the report begins by presenting data for the presidential election between Barack Obama and John McCain. The results from other races then follow – for example, with respect to Queens County, the results from the race for Supreme Court Justice for the 11<sup>th</sup> District, then Civil Court Judge, then Congressional representative from the 5<sup>th</sup> District, etc.

6. For each race, the report sets forth the number of over votes (*i.e.*, votes cast for more than candidate for a single office) that were cast. For example, the first page of the report shows that there were 38,873 paper ballots cast in Queens County in the 2008 presidential race, and that 283 of these ballots contained over votes. Likewise, the last page of the report shows that there were 2,894 paper ballots cast for Assembly Member in the 61<sup>st</sup> District in Richmond County in 2008, and that 5 of these ballots contained over votes.

7. From this report, one can easily count up all of the paper ballots that were cast in New York City in 2008, and also count up the total number of over votes that were cast in New York City in 2008. We have performed these calculations carefully, and we report the following results.

8. Focusing on the 2008 presidential election alone – and ignoring, for the moment, all of the over votes that were cast in races for other offices – there were a total of 1,410 over votes cast in the presidential race in New York City in 2008 out of a total of 196,497 paper ballots cast. This reflects an over vote rate of approximately .718%.

9. Attached hereto as Exhibit B is a true and correct copy of the official statewide results from New York in the 2008 presidential election. There were a total of 7,722,019 votes cast statewide in that election.

10. Attached hereto as Exhibit C is a true and correct copy of the official statewide results for the 2006 New York gubernatorial election. There were a total of 4,697,867 votes cast statewide in that election.

11. Applying the .718% over vote rate that occurred on paper ballots in New York City in the 2008 presidential election to the 7,722,019 votes that were cast in New York State in the 2008 presidential election, it would be reasonable to expect that, if all New York voters had been voting on paper ballots (as opposed to lever machines) in 2008, then something like 55,444 ( $7,722,019 \times .00718$ ) over votes would have been cast across New York State in the 2008 presidential election.

12. Applying the .718% over vote rate that occurred on paper ballots in New York City in the 2008 presidential election to the 4,697,867 votes that were cast in the 2006 New York gubernatorial election, it would be reasonable to expect that, if all New York voters had been voting on paper ballots (as opposed to lever machines) in 2006, then something like 33,730 ( $4,697,867 \times .00718$ ) over votes would have been cast in the 2006 gubernatorial election.

13. This statistical extrapolation is, if anything, likely to be artificially low for two independent reasons.

14. First, there were far more than 1,410 over votes in New York City in 2008. That is only the number of over votes that were cast in the *presidential* race. Counting *all* races, there were at least 5,480 over votes in New York City in 2008 out of a total of 196,497 absentee and affidavit ballots cast, suggesting an over vote rate of as much as 2.79% (assuming that each over vote was cast by a different voter). Indeed, even this rate may be low, because the report attached hereto as Exhibit A is missing one page out of six total pages devoted to Queens County, meaning that there were considerably more than 5,480 over votes on absentee and affidavit ballots in New York City in 2008.

15. I declare under penalties of perjury that the foregoing is true and correct.

Dated: October 1, 2010  
New York, NY

---

Eric Hecker, Esq.
