[1] The summary tables contained in this Appendix were compiled from data produced by the Secretary of State on October 31, and November 9, 2007. That data contained 31,506 non-duplicate voter IDs, representing 31,506 distinct applicants whom the State was unable to match immediately through DHSMV.

Table 3
Percentages of Un-matched Applicants
By Number Submitted on Application

	Un-matched since 1/1/06	Timely Applied and Un-matched as of 2006 Election	Still Un-matched*
Submitted Social Security digits	**68%**	**86%**	**81%**

Claimed to have neither number	1%	1%	1%
Gave no number and no explanation	0.3%	0.3%	0.2%

* The State data files on applicants who remain un-matched appear to understate the number of un-matched applicants in certain counties. For example, they include only eight un-matched applicants in Miami-Dade County and three in Hillsborough County. On their face, those figures are suspect given the size of those counties and prior county records. In fact, Miami-Dade County produced a list containing thousands of currently unmatched applicants. *See* Sola Dep. Tr. 50:9-51:10. Plaintiffs were unable to obtain clarification of the data because Defendant first produced the data concerning currently un-matched applicants on November 9, 2007, the final day allotted for depositions.
