[Announcer]: Last year the legislature voted to reform medical liability

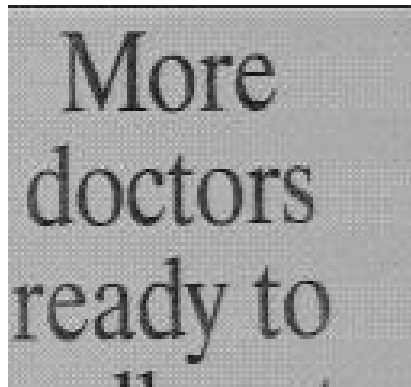

in order to protect the quality of your health care. But greedy trial lawyers

want Warren McGraw and the Supreme Court to overturn the law, sending the

people of West Virginia back into another medical crisis.

After taking thousands from trial lawyers McGraw voted repeatedly in their favor.

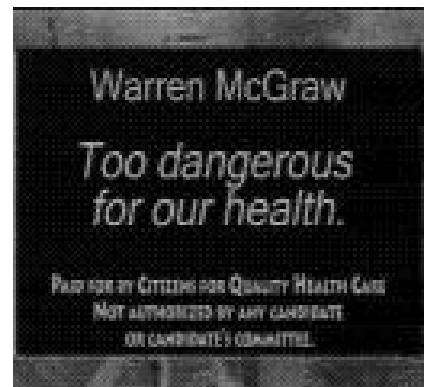

McGraw's votes drove up the costs for doctors and put all health care jobs

at risk. It could happen again. [Nurse]: "For the sake of quality health care lets let Justice McGraw know

he can't take away our doctors and our jobs." [Announcer]: Warning! Warren McGraw,

too dangerous for our health. [PFB]: Citizens for Quality Health Care.
