Note: Louisiana interviews were conducted before Hurricanes Katrina and Rita. Louisiana plans and policy may now be substantially different from the plans and policy represented here.

Registration Deadline

Forms must be received or postmarked 30 days before an election.^{T1}

Database Implementation Status

Since the mid-1980s, Louisiana has used a voter registration database built in-house, and currently known as the Elections and Registration Information Network (ERIN). ERIN is a top-down system: county officials directly access a centralized state database. Louisiana is currently upgrading this database architecture.²

Entering Voter Registration Information

Who inputs voter registration information? Parish officials generally review and enter information from voter registration forms in their jurisdictions into the statewide system.

What happens to voter registration forms submitted at state registration agencies? Forms received by the Secretary of State, Office of Motor Vehicles (“OMV”), or another voter registration agency are sent to the Registrar of Voters in the appropriate parish for review and entry.³

How are most forms submitted? Louisiana reported that in 2004, 30% of forms were submitted by mail, 14% were submitted in person to election officials, 37% were submitted at the DMV, 5% were submitted at another voter registration agency, and 15% were submitted by other means.⁴

Voter Registration Form

The relevant portions of the voter registration form are included at the end of this section.

Processing of Forms Without Identifying Numbers

How will the state treat an application with an affirmative indication that the applicant has no valid identifying number? Louisiana’s form does not clearly state how an applicant should indicate that she has no valid identifying number.

How will the state treat an application without an identifying number and without an affirmative indication that the applicant has no such number? If uncorrected (see below), and if otherwise eligible, the applicant will be registered as an “inactive” voter, and must provide identification and affirm her residence at the polls in order to vote a regular ballot.⁵

How will the state treat an application listing an identifying number that is either incomplete or illegible? If uncorrected (see below), and if otherwise eligible, the applicant will be registered as an “inactive” voter, and must provide identification and affirm her residence at the polls in order to vote a regular ballot.⁶

Matching Against Motor Vehicle and Social Security Records

What fields from the voter registration form will the state seek to match to motor vehicle or Social Security records? Identifying number, first name, last name, maiden name, and address.

How precise is the match standard? Louisiana intends to use an exact match standard (accounting for a maiden name), but has not yet finalized the criteria by which a match will be sought.

How much human intervention is involved in determining whether information is matched? The matching process will be fully automated.

Description of matching process: Louisiana has not finalized the details of its matching process. At present, state officials periodically submit a compact disc containing new applicants’ information to the OMV, which attempts to match records against its own database of driver’s license records. Each applicant’s record is then tagged as verified or unverified, and sent back to the state, which forwards results to the appropriate parish office. Louisiana is currently attempting to upgrade its system to provide for real-time matching.

Note: Louisiana also mails a verification notice to every voter submitting an application; if the notice is returned undeliverable, the application is rejected.⁷

What are the consequences if the state cannot find a match? If otherwise eligible, the applicant will be registered as an “inactive” voter, and must provide identification and affirm her residence at the polls in order to vote a regular ballot.

Notice and Opportunity to Resolve Errors

Does the applicant have the opportunity to correct a missing or incomplete identifying number, without submitting a new form? Yes. The applicant may correct missing or incomplete information within 21 days, and may submit a new form at any point before the close of registration.⁸

Does the applicant have the opportunity to resolve a failed match without submitting a new form? Yes. The applicant may submit information to resolve a failed match within 21 days, and may submit a new form at any point before the close of registration.

If information on an otherwise timely application is corrected after the voter registration deadline, is the correction timely? Louisiana has no stated policy on whether an application may be corrected after the voter registration deadline, if the 21 days has not yet expired.

Description of notice and correction process: The parish registrar will attempt to notify by mail an applicant whose identifying number is missing, incomplete, illegible, or unverified. The applicant may offer corrections or additional information to resolve the failure within 21 days. Thereafter, the applicant will be tagged as “inactive,” and if otherwise eligible, she will be able to vote upon providing identification and affirming her residence.

Identification Requirements at the Polls

Who must provide identification at the polls? Every voter must provide photo identification.⁹ Any applicant tagged as “inactive” may vote upon further affirming that she currently resides within the appropriate parish.¹⁰

Forms of ID:

voter without verified identifying number:	“generally recognized” photo ID affirmation of residence
every voter:	“generally recognized” photo ID

An applicant registering in person must also submit, at registration, either a current Louisiana driver’s license or, if she has none, documentation which establishes her identity, age, and residency. If the registrar has reason to believe that the applicant is not the person she represents himself to be, the applicant must produce two witnesses who live in the precinct.¹¹ Furthermore, a naturalized applicant must submit proof of naturalization; if she is a first-time registrant, such proof must consist of a certified certificate of naturalization or a current passport.¹²

What forms of identification are accepted? Any “generally recognized picture identification card” is accepted as identification at the polls.¹³

What are the consequences of failing to show identification? A voter who has no such card must sign an affirmation stating that she has no such card, and must then provide “other information stated in the precinct register that is requested by the [election] commissioners.”¹⁴ If the voter does not sign the affirmation or cannot provide the additional information, she will be able to cast a provisional ballot in a federal election; in a non-federal election, she will not be able to cast a ballot.¹⁵ The provisional ballot will be counted if the parish board of election supervisors determines that the voter was registered and eligible to vote.¹⁶

Statutes and Regulations

LA. REV. STAT. ANN. §§ 18:101 *et seq.* generally concern registration. LA. REV. STAT. ANN. § 18:31(A) directs the Secretary of State to establish and maintain a single statewide voter registration database. There are no applicable regulations.

⁵ Louisiana officials indicated that such a voter would be placed on the “inactive list,” which is normally used in the case of a suspected change of address. *See* LA. REV. STAT. ANN. § 18:196. A different provision of Louisiana law provides that if an applicant “fails to provide all of the required information on the application for voter registration,” the applicant shall be notified with an opportunity to respond, and “[i]n the event that the applicant does not respond to the request for the missing information within ten days, the application shall be rejected and the registrar shall so advise the applicant in writing.” *Id.* § 18:115(B)(1)(b).
